Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
--	--------------	-----------------------

KEY: See Section 4 for breach categories, suspended scores will be indicated as such.

A = Assessed or assessed in part (no evidence of non-compliance), **N** = Not Assessed, **X** = Action only

Number of breaches recorded	0	Total compliance score (see section 5 for scoring scheme)	0

Liberty Steel Newport (LSN) have requested temporary permission to receive and store EAF dust from Celsa Manufacturing (UK) Ltd, pending its transfer for recovery overseas. This request has arisen as the normal permitted site that stores Celsa's EAF dust (Cargo Services) has had to move its operation at short notice and the proposed replacement site (Birdport) awaits a permit.

LSN already have a permit that covers storage of their own generated EAF dust and the material being produced by Celsa is the same.

This CAR form grants permission for LSN to receive EAF dust in sealed bulk bags for storage on site pending, transfer under TFS for recovery, or, movement to Cargo Services's new site when permitted. An area of LSN's site suitable for short term EAF dust storage has been identified (Email to NRW dated 13th April 2016). Such permission is temporary and granted for a four month period from the date of this CAR form. The expectation is that prior to a four month period elapsing Cargo Services will have a new permitted facility that will receive EAF dust direct from Celsa.

LSN must ensure that the storage of EAF dust received from Celsa/Cargo Services is managed such that there is no environmental impact. All bags received must be sealed and undamaged. Notification must be provided to NRW when removal of the stored EAF dust is complete. **Action: LSN.**

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition. Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

Criteria Ref.	CCS Category	Action required/advised	Due Date
See Section 1 above			

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply

Non-compliance scores and categories
