### Introductory note

**This introductory note does not form a part of the notice.**

The following notice gives notice of the variation and consolidation of an environmental permit.

This permit introduces a peaking power generation plant to the existing permit. This variation allow the addition of 9 x 4.5MW units which will generate up to 1.65MWe of electrical power each, there are also associated transformers and switch gear along with fuel storage, all stored on concrete hardstanding with sealed drainage.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
