## Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Forms A1, A2, W1 and S1 for 1st January to 31st March 2017 were received on 28th April 2017.
All the reports are accepted.

**Form A1, Emissions to Air**
All emissions were within their respective Emission Limit Values (ELV), however, the spot test results from emission points A4 and A6 were above the spot test ELVs. The ELV for these emission points will change when the varied permit is issued, but it will revert to being a spot test result, rather than the calculated value currently reported.

**Form A2, Emissions to Air, quarterly results**
All emissions were within their respective ELVs.

**Form W1, Emissions to Water**
All emissions of lead to water were less than the ELV.

**Form S1, Emissions to Sewer**

Other than the provision of advice and guidance, at present we do not intend to take further enforcement action in respect of the non-compliance identified above. This does not preclude us from taking enforcement action if further relevant information comes to light or advice isn't followed.
