

Schedule 1 - Notification of abnormal emissions

This page outlines the information that the Operator must provide to satisfy conditions 5.1.1 and 5.1.2 of this Permit.

Units of measurement used in information supplied under Part A and B requirements shall be appropriate to the circumstances of the emission. Where appropriate, a comparison should be made of actual emissions and authorised emission limits.

If any information is considered commercially confidential, it should be separated from non-confidential information, supplied on a separate sheet and accompanied by an application for commercial confidentiality under the provisions of the PPC Regulations.

Part A

Permit Number	NP3030BJ
Name of Operator	EnerSys Newport
Location of Installation	Stephenson Street
Location of the emission	A4 Grey Oxide Blower
Time and date of the emission	25/04/2017 11.58-12.40 (Report received 09/05/2017)

Substance(s) emitted	Media	Best estimate of the quantity or the rate of emission	Time during which the emission took place
Lead	Air	0.32mg/Nm3 or 0.40g/hour	11.58-12.40 25/04/17

Measures taken, or intended to be taken, to stop the emission	Maintenance and Engineering Department informed of the breach on 09/05/2017 and requested to investigate the elevated result immediately. Part B will be issued as soon as the investigation is complete. Stack A4 has a history of breaches due to the spot limit being so low. This breach will be below the proposed limit for stack A4 in the draft new permit for EnerSys Newport (0.75mg/m3).
