### **Introductory note**

#### **This introductory note does not form a part of the notice**

The following notice gives notice of the surrender in part and variation of an environmental permit.

As a result of this application part of the site has been surrendered following cessation of quarrying in 2008. The activities that took place within this area included blasting and extraction of limestone, and transportation of the won material to the crushing area. The surrendered area is a section of North Quarry now being restored by RWE Npower PLC. The limits of specified activities in Table S1.1 has also been amended to reflect this change.

Any changes made as a result of the part surrender are set out in the schedules.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
