6th April 2017

Dear Kara,

Re. Improvement Condition 4 – Particulate Emission Limit Values

Further to your query, we have reviewed your submission and agree with the proposed emission limit values (refer table below) which will apply from 09/04/17.

Emission Point Reference	Source	Emission Limit Value until 08/04/17 (mg/m ³)	Emission Limit Value from 09/04/17 (mg/Nm ³)
A1	Main Stack	30	10
A2	Cement Mill dust filter	30	20
A3	Cement Mill Separator	30	20
A4	Coal mills	-	10
A5	Primary Crusher	-	10
A6	Raw Meal Handling Dust Plant	-	10
A7	Polychip Walking Floor	-	10
A8	Packing Plant	-	10

We acknowledge the technical concerns raised in your response regarding the calibration of particulate CEMs at low particulate emissions. You may be aware that this issue is currently subject to discussion between the Mineral Products Association, its members (including Tarmac) and the UK regulators.

NRW is liaising with the Environment Agency and we will respond to the matters raised in your submission in due course. Until such time please continue to follow the monitoring requirements as set out in your permit.

If you would like to discuss any matters further then please do not hesitate to contact me.

Yours sincerely,

David Griffiths

Regulatory Officer
