Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the surrender in part of an environmental permit.

This partial surrender is to allow for the surrender of an area of the site which will then be permitted separately to allow for the operation of a hydrogen plant operated by BOC Limited.

The partial surrender is considered to be low risk as Solutia UK Limited are retaining ownership of the land and have demonstrated through a site condition report that current level of contamination on the area to be surrendered poses a low risk and is a result of historical activities on the land.

Any changes made as a result of the part surrender are set out in the schedules.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
