Subject: Solutia UK Ltd, Newport Chemical Complex – EPR Permit Number: BR97151B
Permit Condition 2.8.1 – Update re site ‘Accident Management Plan’

Date: 18th January 2017

The Operator shall maintain and implement when necessary the accident management plan submitted or described in Section 2.8 of the Application. The plan shall be reviewed at least every 2 years or as soon as practicable after an accident, whichever is the earlier, and the Agency notified of the results of the review within 2 months of its completion

This letter is to advise that the ‘Hazard Management plan’ associated with the site accident management plan underwent a review, and was subsequently issued on 16th November 2016. The update includes changes to Seveso III terminology (referencing internal / external plan), and use of the ‘METHANE’ mnemonic, as used by the emergency services in incident communications

An emergency exercise to test the off-site plan (as required by Comah regulations) was conducted on the 10th May 2016 with attendance & participation from the respective Emergency Services agencies & regulatory authorities

A copy of the updated plan is available on request

Stephen Thomas
