

Schedule 1

Notification of Unauthorised Release

Operator: Tata Steel Strip Products UK

Authorisation: BS3905IP

Location: Llanwern works
Newport
South Wales
NP19 4QZ

Date Submitted: 25/4/2018

PART A

- Name of the prescribed substance or other substance which might cause harm**

Elevated emission level to atmosphere of HCl from the Pickle Line 2 process, EPR Emission Point ref: A7

- Time, date and location of the release**

The sampling exercise that identified that the emissions were above the consent limit was conducted on the 28/3/2018 for Q1.

- Best estimate of the quantity of the substance released, or the rate of release and the time during which the release took place**

The concentration level recorded was: 14.9 mg/Nm³ Vs EPR specified limit of 10.0 mg/Nm³

- Additional information**

Further investigation information to follow in Part B

- Measures taken, or intended to be taken to stop the release**

Investigations into possible cause have been initiated, and a repeat sampling exercise requested at the earliest available opportunity.

Name: HAYLEY JEREMIAH.
