

10, FALCON ROAD,  
BARRY,  
CF63 2AT

2<sup>nd</sup> April 2017.

Dear Sir/Madam,

PAN-000869

I am writing to register my objection to the plant under construction at Woodham Road, Barry. My objections are as follows:

1. I do not believe that the Council has consulted sufficiently given the location and nature of the installation. There seems to be widespread discontent, and lack of consultation, is, in my opinion, a recurring theme with this Council.
2. The impact on health does not seem to have been adequately assessed.
3. We already have in Barry a number of

disfiguring installations. I do not see why we have to have more or why the majority of the town has to overlook this blot on the landscape. I thought that the purpose of regeneration was to improve things rather than the reverse.

Yours faithfully,

 (ALYSON  
FAIRWEATHER)
