Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Emissions monitoring for Q4 (01/10 to 31/12/2018) and 2018 annual reporting

Requirements - Condition 3.3.1 requires the operator to undertake monitoring as specified in tables S3.1, S3.2 and S3.3 of Schedule 3 of the permit. The results of that monitoring are required to be reported to Natural Resources Wales in accordance with Schedule 4 and table S4.1. Condition 4.2.2 requires annual reporting of performance parameters.

Findings -Annual performance parameters and Q4 monitoring returns for emission points W2 (to water) and A6 and A15 (to air) were received on 25/01/2018. All monitored emissions were as required by the permit and within the relevant emission limit values.

Emission point A7 was not monitored due to construction works impeding access to the monitoring point. This monitoring is planned to take place once the construction works are completed in April 2019.

Action: Please ensure that the results of the rescheduled monitoring exercise are reported within the Q2 (01/04 to 30/06/2018) period monitoring reports.

Waste returns

At the time of writing waste returns have been received for Q1, Q2 and Q3 of 2018. Q4 returns are due to be submitted by 31/01/2018.
