

ANNUAL REPORTING – 4.1.5

Annual Improvement Targets

The company have made a business decision to no longer be accredited to the ISO 14001 Environmental Management standard. The company will be continuing to maintain the environmental management system.

The Wrexham plant have environmental targets. Below is a summary of the plants performance for 2018.

Area	Target	Actual
Energy (kWh/t)	1756	1526
Water (m3/t)	4.28	3.3
Waste (t/t)	124.82	134.15

Overall the plant performance is green on energy and water. Waste has come in red. The main reasons for not meeting the waste targets where due to the commissioning of a new production line.
