EPR/AB3792ZU/V002

Permit number

EPR/AB3792ZU

Pwllpridd Free Range Poultry Unit

Permit number EPR/AB3792ZU

Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

This variation is to increase the maximum number of free-range layers from 48,000 to 80,000. An Air Scrubbing Unit will be installed to the new proposed shed to mitigate the emissions produced by the increase in bird numbers. The site boundary will be expanded to provide a ranging area for the additional birds.

The variation will also add an 87kW closed loop ground source heat pump system to the permit as a 'directly associated activity'. This system will be used to heat the existing poultry units.

The Operational Techniques and site plan have been updated in line with the above changes.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	Date	Comments
Application received PAN-001991	27/10/2017	Application for 48,000 layer places installations permit
Additional information received	01/12/2017	In-combination assessment received
Additional information received	15/01/18	Emission plan received
Permit determined EPR/AB3792ZU	16/03/18	Permit issued to Mr Endaf Jenkins
Variation application received PAN-014011	Duly made 01/10/2021	Application to increase number of places to 80,000 layers and add an additional poultry unit
Variation determined EPR/AB3792ZU/V002	18/01/2022	Varied and consolidated permit issued in modern condition format.

End of introductory note.
