Date: 6th January 2017

Dear Sir/Madam

Changes to your permit

Permit reference: EPR/RP3133LD
Operator: RWE Generation UK plc
Facility: Aberthaw Power Station, The Leys, Aberthaw, Barry, CF62 4ZW.

On 9th December 2016 we discussed the need to change your permit with Richard Little, Gill Hunter, Steve Waygood and Mark Picton of RWE Generation UK plc. This letter is to confirm the details of our conversation.

When we decide we need to change a permit we call this a regulator initiated variation.

Natural Resources Wales is required to review your environmental permit following the Court of Justice of the European Union (CJEU) judgement in relation to Aberthaw Power Station on the 21st September 2016. Following the CJEU judgement, the extant environmental permit for Aberthaw power station no longer delivers EU law, or domestic provisions under the Environmental Permitting (England & Wales) Regulations 2016 (EPR 2016). Specifically these are the requirements under Schedule 15, paragraph 3(d) of EPR 2016 and its reference to Article 32(2) of the Industrial Emissions Directive (IED).

In order to gather information relevant to the permit review and to inform the details of the permit changes required, we have included with this letter a notice requiring you to supply information. The details of the information required are set out in schedule 1 of the notice.

Our Permitting Service will carry out the permit review and variation work. If necessary we'll advertise the draft variation on our website. If we receive any comments about the variation we'll consider them when we're drafting the variation. We'll send you a draft copy of the changes to your permit, which are shown in a variation notice, so you may comment on the changes.

If you have any questions please phone me on 03000 654358 or email anna.lewis@naturalresourceswales.gov.uk.

Yours sincerely

Anna Lewis
Principal Permitting Officer
