A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

- Bird Control operational at time of inspection

- Wheel wash routine maintenance was being undertaken at time of inspection and a road sweeper was on site as an interim measure during these works.

- No wind blown litter and debris observed during site inspection.

- During site inspection a slight / moderate leachate type odour was detected on the perimeter road in close proximity of the leachate holding tanks. NRW requested further investigation to be undertaken in the area in order to reduce / minimise this odour.

After discussing this with you an FID Survey was requested. However although a report was submitted to NRW the investigation / survey did not take place until 4.5 hours after the inspection. This delay is not acceptable and we would expect any further investigation requests to be undertaken ASAP.
