### Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached

## Section 2 – Compliance Assessment Report Detail

This section contains a report of our findings and will usually include information on:

- The part(s) of the permit that were assessed (eg. Maintenance, training, combustion plant, etc)
- Where the type of assessment was 'Data Review' details of the report/results triggering the assessment
- Any non-compliances identified
- Any non-compliances with directly applicable legislation
- Details of any multiple non-compliances
- Information on the compliance score accrued inc.
- Details of advice given
- Any other areas of concern
- Any actions requested
- Any examples of good practice
- A reference to photos taken

These breaches were identified by an assurance scheme audit and not by Natural Resources Wales.

You have been given CAT 4 breaches under the above conditions because during the assurance scheme inspection it was noted that numerous documents were unavailable, which is a requirement of your permit.

Non-conformances:

1. Energy review not available at audit
3. Raw materials review not available at audit
4. Water review not available at audit
5. Waste review not available at audit

A detailed note of the required content of the reviews is found in the 'How to comply with your environmental permit for intensive farming' document which has been sent to you.

Please complete and present the required documents to Natural Resources Wales by 30/11/2018.
