Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Following various personnel changes at the Roath Dock site, Castle were left without technically competent personnel based on site. They were asked to remedy the situation by the end of April 2018.

Natural Resources Wales are now satisfied that suitable technically competent personnel are based on site. The actions from CAR_NRW0032576 have been completed and can thus be closed.

It is very encouraging that this has been completed a month before the due date.

END.
