Dear Sir/Madam,

Application for a Tier 2 Standard Rules Environmental Permit SR2008No1
Scott Waste Ltd, Unit 9-10 Village Farm Road, Village Farm Industrial Estate, Pyle, Bridgend, CF33 6BL.

Please find enclosed our application to apply for a Tier 2 Standard Rules Environmental Permit.

The contents of the application, with explanatory comments where required, are summarised below. As specified in the guidance documents, 1 hardcopy of all documents and a CD containing electronic versions are enclosed.

Environmental Permit Application Forms

Part A, B1 and F1 have been completed in line with Natural Resource Wales's guidance.

Pre-Application Discussions

Documents SD1a and SD1b include copies of communications between our Representative, NRW's local site Officer, Linda Warwick, and Nadine Jones of NRW's Waste Permitting Team. The communications related to initial discuss regarding permitting of the site, rather than to this specific application. To our knowledge, no case reference number has been issued for this application.

Site Plan

Drawing 10926 - 000 - A Permitted Area is a scaled plan identifying all of the land on which the proposed activities will take place.

The site boundary is positioned such that it is located at least 200m from the Penycastell, Cefn Cribwr SSSI and Cefn Cribwr Grasslands SAC to the east of the site (in compliance with the locational constraints of standard rules permit SR2008No1). Drawing 10926 – 000 – C is a site layout drawing that highlights the position of the 200m separation boundary from the SSSI and SAC.

Operator Competence

Mr. William Scott is in the final stages of completing his WAMITAB Level 4 qualification. Award of the qualification is likely to occur within the determination period for this application.

Whilst not complying with NRW's requirements to demonstrate competence for permitting purposes, Mr Scott does hold a WAMITAB Level 3 Diploma for Waste Supervisor.

Exempt Activities

The business has a number of waste exemptions registered at the site. The Operator intends to maintain exemptions for activities being undertaken in areas of the site within the 200m separation distance between the site and the Penycastell, Cefn Cribwr SSSI/Cefn Cribwr Grasslands SAC.

Drawing 10926 – 000 – C highlights the areas of the site to be regulated under the proposed standard rules environmental permit and those to be regulated under waste exemptions.

I trust the above information meets with your requirements, however should you wish to discuss or clarify these issues please contact our Representative, Stuart Watcham on 07976 720689, or myself on 07967 971009.

Yours faithfully,

William Scott
Director
