Waste Returns 2017 Notification

We are writing to inform you that the waste return template has been updated for the submission of waste returns in 2017.

Please note we can only accept the spreadsheet attached to this email for submission of returns for the reporting period 1st January – 31 March 2017 onwards (i.e. submission deadline 30 April 2017 onwards). All return deadlines for the 2017 reporting year are listed in the table below for your convenience.

Please also be reminded that your quarter 4/annual 2016 return is due for submission to us by the 31st January 2017. It is possible for you to use the new attached 2017 return template for submission of this return as well as any outstanding returns for other historic periods.

Deadlines for submitting waste returns for the 2017 reporting year

Reporting Quarters	Deadline for return
1 January to 31 March 2017	30 April 2017
1 April to 30 June 2017	31 July 2017
1 July to 30 September 2017	31 October 2017
1 October to 31 December 2017	31 January 2018

Annual return period	Deadline for return
1 January to 31 December 2017	31 January 2018

Information copied and pasted from earlier returns' forms is not compatible, therefore cannot be accepted and will be returned.

Information and guidance to help you complete your return can be found at:

<http://naturalresources.wales/guidance-and-advice/environmental-topics/waste-management/new-wales-operator-waste-return-and-deadlines-for-returns/?lang=en>

To ensure compliance with your permit, you must send us completed, accurate waste returns by the deadlines above. Late waste returns are recorded as a permit breach and therefore attract a compliance score. Scoring non-compliances could mean a higher annual subsistence charge for you. Repeated late returns will increase the score you receive and may lead to further escalation.

Please see the checklist below to help you complete your return:

Checklist for completing your return

- 1) Check the version of the form you are using, we can **only** accept version 7.3 of the Excel spread-sheet for 2017 returns.
- 2) Select correct quarter and year from drop down options
- 3) Use EPR reference number for your permit, we **won't** accept EAWML or other reference numbers-check your permit/public register if unsure:
<http://epr.environment-agency.gov.uk/ePRInternet/searchregisters.aspx>
Please use original EPR, not variations unless transferred and advised accordingly
- 4) Complete **all** light blue boxes, that information is mandatory-check to see if there is a drop-down option. (You can only enter data if there isn't one)
- 5) Complete from the first available cell-don't leave gaps.
- 6) Local authority area-**must select local authority** from drop down options **NOT** country
- 7) Disposal & Recovery code-unsure? Check [pick-list document](#) (available as downloadable document from our Waste Returns web page)
- 8) Waste collection authority source & biodegradable columns: select 'Yes' from drop down option or **leave blank**

10) **MF facilities/landfills:** have you entered any extra data required?

If you have any other difficulties/queries regarding completing your return please contact your local Environment Officer.

Please be aware that if:

- Your site became operational during this period you should submit a waste return, or;
- No waste was received at your site during this period you must report a nil waste return.

If you operate a landfill please include the remaining capacity on your return form. You should report the capacity in the January return*, however if you are unable to provide the required information at that point in time you must provide it in the following quarter's return in April.

*(To report landfill capacity you need to give the current capacity from a survey taken during that month and provide the remaining capacity at the start of that calendar year)

Please send your completed returns to:
