**WHEREAS** on the 2 November 2001 the Environment Agency issued a waste management licence in pursuance of its powers under Part II of the Environmental Protection Act 1990 for the above named facility to you

**AND WHEREAS** on the 10 December 2003 the Agency modified the conditions of the said licence

**NOTICE IS HEREBY GIVEN** that the Agency modifies the conditions of the said licence in accordance with Section 37(1)(a) of the Environmental Protection Act 1990 and as set out in the Schedule attached to this notice.

Signed 

Name Tim Owen  
Environmental Management Team Leader

Dated 17-3-06

This modification shall take effect on 24 March 2006 at 00.01 hours

## SCHEDULE - CONDITIONS RELATING TO THIS MODIFICATION

Modification of conditions under section 37(1)(a) as follows:

### Delete conditions

#### *Permitted categories and types of wastes*

1.2.1 No wastes shall be accepted at the site other than those which are:

- a categorised below in Table 1.2; and
- b specified in the list of waste types for the site provided in section A3 and Appendix 1 of the working plan

| Table 1.2 Permitted quantities of waste                                                                                                            |                                                                                                                                     |
|----------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| Permitted Waste Categories (equivalent UK Waste Classification Scheme categories given in brackets)                                                | Maximum Permitted Quantities for each waste category (subject to maximum permitted total quantity in condition 1.2.2) (tonnes/year) |
| Inert waste (Category 21a and 21b) (Solid)                                                                                                         | No limit, subject to maximum storage capacities                                                                                     |
| General and biodegradable wastes (Category 22a,b,d; includes degradable commercial and industrial wastes not covered by categories 23-32). (Solid) | No limit, subject to maximum storage capacities                                                                                     |
| Metals and discarded (scrap) composite equipment (Category 23b).                                                                                   | Not permitted, except as items included in wastes under 'General and biodegradable wastes' (Category 22a,b,d).                      |
| Contaminated general wastes (Category 24b).                                                                                                        | No limit, subject to maximum storage capacities.                                                                                    |
| Special wastes (in Categories 22 to 32).                                                                                                           | Not permitted                                                                                                                       |
| Other categories of waste (Categories 25 to 32).                                                                                                   | Not permitted                                                                                                                       |

### 4.5 Waste quantity measurement systems

#### *Means of measurement*

All wastes accepted and despatched from the site shall be measured in accordance with Annex 1 of this notice.

Table 4.6

**Table 4.6 Standards for handling and/or storage of wastes with specified characteristics**

| <b>Storage requirement</b>                                                                                                                                                                      | <b>Specified standards</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| a) Solid wastes which do not consist solely or mainly of dusts, powders or loose fibres, but which when handled are likely to generate significant quantities of dusts, fibres or particulates. | <p>i) These wastes only permitted if they are either:</p> <ul style="list-style-type: none"> <li>received in sealed containers and stored in sealed containers and in areas provided with impermeable pavement and sealed drainage; or</li> <li>stored in covered buildings providing containment of aerial emissions; or</li> <li>stored in bays provided with an impermeable pavement and sealed drainage.</li> </ul> <p>ii) These wastes shall be subject to monitoring in accordance with condition 6.1</p>                                                                                                                                                                                       |
| b) Odorous wastes, including wastes which are likely to be odour producing during storage                                                                                                       | <p>i) These wastes only permitted if:</p> <ul style="list-style-type: none"> <li>received in sealed containers and stored in sealed containers and in areas provided with impermeable pavement and sealed drainage; or</li> <li>stored in covered buildings providing containment of aerial emissions; or</li> <li>stored in bays provided with an impermeable pavement and sealed drainage.</li> </ul> <p>ii) These wastes shall be subject to monitoring in accordance with condition 6.2 and shall in any case not be stored for longer than 48 hours.</p>                                                                                                                                         |
| c) Solid wastes which are likely to produce polluting or contaminating run-off.                                                                                                                 | <p>i) Inert (Category 21) wastes only permitted if stored in bays with [either]:</p> <ul style="list-style-type: none"> <li>hardstanding and drainage that prevents run-off from the waste into adjacent surface water bodies or storm water drains; or</li> <li>an impermeable pavement and sealed drainage.</li> </ul> <p>ii) General and biodegradable (Category 22) and contaminated general (Category 24) wastes only permitted if stored in areas with impermeable pavement and sealed drainage and either:</p> <ul style="list-style-type: none"> <li>received and stored in sealed containers; or</li> <li>stored in covered shelters or roofed areas; or</li> <li>stored in bays.</li> </ul> |
| d) Combustible wastes                                                                                                                                                                           | These wastes only permitted if stored in bays provided with an impermeable pavement and sealed drainage, and with access to fire fighting equipment.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| e) Wastes which are likely to attract pests                                                                                                                                                     | These wastes shall be subject to monitoring in accordance with condition 6.3, and shall in any case not be stored for longer than 48 hours.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

## 7.2 Records of waste movements

### *Recording of wastes accepted and removed*

- 7.2.1 A record shall be kept of all wastes received and of all materials (wastes and recovered materials) removed from site. The records shall include the following for each vehicle load of waste/material:

#### *For waste received:*

- (a) origin of waste
- (b) date received
- (c) quantities in tonnes received and waste type as specified in condition 1.2
- (d) nature of the waste (solid, liquid or sludge)

#### *For waste/material removed:*

- (a) date removed
- (b) quantities in tonnes removed and waste and/or material type
- (c) destination of waste and/or materials removed
- (d) nature of the waste and/or materials (solid, liquid or sludge)

- 7.2.2 A summary record of the waste types and quantities accepted and removed from the site shall be made for each quarter and shall be submitted to the Agency within one month of the end of the quarter. The summary record shall be in the format specified in Annex 1, and shall include the specified information.

## Annex 1

## Add new conditions

### *Permitted categories and types of wastes*

- 1.2.1 No wastes other than those which are both categorised below in Table 1.2 and specified in detail in Appendix A shall be accepted at the site.

### Permitted quantities of wastes

| Table 1.2A. Permitted quantities of waste                                                   |                                                                       |
|---------------------------------------------------------------------------------------------|-----------------------------------------------------------------------|
| Permitted Waste Categories                                                                  | Maximum Permitted Quantities (tonnes/year)                            |
| Inert wastes                                                                                | No limit subject to maximum storage capacities detailed in Table .1.1 |
| Metal wastes                                                                                | Not permitted                                                         |
| Hazardous Wastes                                                                            | Not permitted                                                         |
| Degradable Household wastes<br>Degradable Commercial wastes<br>Degradable Industrial wastes | No limit subject to maximum storage capacities detailed in Table .1.1 |
| Other wastes:                                                                               | Not permitted                                                         |

### *Permitted quantities of wastes*

- 1.2.2 The total quantity of waste accepted at the site per year shall not exceed 4999 tonnes.

## 4.5 Waste quantity measurement systems

### *Means of measurement*

- 4.5.1 All waste accepted at and despatched from the site shall be measured in accordance with either of the following requirements:
- a The weight of all wastes accepted at and despatched from the site shall be determined by means of a public weighbridge, or a weighbridge or scales located within the site. The weighbridge or scales used shall record quantities of wastes in tonnes to an accuracy of 0.01 tonnes; or
  - b The following conversion factors shall be used:

Waste quantities shall be recorded in cubic metres and measured on the basis of the capacity of the vehicles or containers used for transport. This shall be converted into tonnes on the basis of conversion factors, which have been agreed in writing with the Agency.

**Table 4.6 Standards for handling and/or storage of wastes with specified characteristics**

| <b>Storage requirement</b>                                                                                                  | <b>Specified standards</b>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
|-----------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| a) Solid wastes which when handled or stored are likely to generate significant quantities of dusts, fibres or particulates | <p>i) These wastes only permitted if they are handled and stored either in:</p> <ul style="list-style-type: none"> <li>i) buildings or containers providing containment of aerial emissions of dusts and particulates; or</li> <li>ii) bays or roofed areas provided with a permanent water supply and water spraying or misting equipment, and with an impermeable pavement and a sealed drainage system; and the water spraying or misting equipment is used at all times when significant quantities of dusts, fibres or particulates are likely to be, or are being generated.</li> </ul>                                                                      |
| b) Odorous wastes, including wastes which are likely to be odour producing during storage                                   | <p>iii) These wastes only permitted if:</p> <ul style="list-style-type: none"> <li>• received in sealed containers and stored in sealed containers and in areas provided with impermeable pavement and sealed drainage; or</li> <li>• stored in covered buildings providing containment of aerial emissions; or</li> <li>• stored in bays provided with an impermeable pavement and sealed drainage.</li> </ul> <p>iv) These wastes shall be subject to monitoring in accordance with condition 6.2 and shall in any case not be stored for longer than 48 hours, unless otherwise agreed in writing with the Agency.</p>                                          |
| c) Solid wastes which are likely to produce polluting or contaminating run-off.                                             | <p>ii) Inert wastes only permitted if stored in bays with either:</p> <ul style="list-style-type: none"> <li>• hardstanding and drainage that prevents run-off from the waste into adjacent surface water bodies or storm water drains; or</li> <li>• an impermeable pavement and sealed drainage.</li> </ul> <p>iii) Degradable Household, Commercial and Industrial wastes only permitted if stored in areas with impermeable pavement and sealed drainage and either:</p> <ul style="list-style-type: none"> <li>• received and stored in sealed containers; or</li> <li>• stored in covered shelters or roofed areas; or</li> <li>• stored in bays.</li> </ul> |
| d) Combustible wastes                                                                                                       | These wastes only permitted if stored in bays provided with an impermeable pavement and sealed drainage, and with access to fire fighting equipment.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| e) Wastes which are likely to attract pests                                                                                 | These wastes shall be subject to monitoring in accordance with condition 6.3, and shall in any case not be stored for longer than 48 hours, unless otherwise agreed in writing with the Agency.                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| f) Wastes which are likely to attract scavengers                                                                            | <p>i) These waste only permitted if:</p> <ul style="list-style-type: none"> <li>• stored in closed or secure containers; or</li> <li>• stored in covered buildings providing security against scavengers, or</li> <li>• stored in bays provided with netting or fencing providing security against scavengers.</li> </ul> <p>ii) These wastes shall be subject to monitoring in accordance with condition 6.4.</p>                                                                                                                                                                                                                                                 |

## **7.2 Records of waste movements**

### *Recording of wastes accepted and removed*

- 7.2.1 A record shall be kept of all wastes received and of all wastes removed from the site. The records shall include the following for each vehicle load of waste:

#### *for waste received:*

- a origin of waste
- b date received
- c quantities in tonnes received and waste type
- d nature of the waste (solid, liquid or sludge)

#### *for waste removed:*

- e date removed
- f quantities in tonnes removed and waste type
- g destination of waste removed
- h nature of the waste (solid, liquid or sludge)

- 7.2.2 A summary record of the waste types and quantities accepted and removed from the site shall be made for each quarter of the financial year and shall be submitted to the Agency within one month of the end of that quarter. The summary record shall be in the format detailed in Appendix B or otherwise subsequently specified by the Agency in writing.

## Appendix A – Permitted Waste Types

| EWC      | Description                                                                                                        |
|----------|--------------------------------------------------------------------------------------------------------------------|
| 02       | WASTES FROM AGRICULTURE, HORTICULTURE, AQUACULTURE, FORESTRY, HUNTING AND FISHING, FOOD PREPARATION AND PROCESSING |
| 02 01    | plant-tissue waste                                                                                                 |
| 02 01 03 | plant-tissue waste                                                                                                 |
| 02 01 04 | waste plastics (except packaging)                                                                                  |
| 02 01 07 | wastes from forestry                                                                                               |
| 02 01 10 | waste metal                                                                                                        |
| 02 02 03 | materials unsuitable for consumption or processing                                                                 |
| 02 03 01 | sludges from washing, cleaning, peeling, centrifuging and separation                                               |
| 15       | WASTE PACKAGING, ABSORBENTS, WIPING CLOTHS, FILTER MATERIALS AND PROTECTIVE CLOTHING NOT OTHERWISE SPECIFIED       |
| 15 01    | packaging (including containers)                                                                                   |
| 15 01 01 | paper and cardboard packaging                                                                                      |
| 15 01 02 | plastic packaging                                                                                                  |
| 15 01 03 | wooden packaging                                                                                                   |
| 15 01 04 | metallic packaging                                                                                                 |
| 15 01 05 | composite packaging                                                                                                |
| 15 01 06 | mixed packaging                                                                                                    |
| 15 01 07 | glass packaging                                                                                                    |
| 15 01 09 | textile packaging                                                                                                  |
| 17       | CONSTRUCTION AND DEMOLITION WASTES (INCLUDING EXCAVATED SOIL FROM CONTAMINATED SITES)                              |
| 17 01    | concrete, bricks, tiles and ceramics                                                                               |
| 17 01 01 | concrete                                                                                                           |
| 17 01 02 | bricks                                                                                                             |
| 17 01 03 | tiles and ceramics                                                                                                 |
| 17 01 07 | mixtures of concrete, bricks, tiles and ceramics other than those mentioned in 17 01 06                            |
| 17 02    | wood, glass and plastic                                                                                            |
| 17 02 01 | wood                                                                                                               |
| 17 02 02 | glass                                                                                                              |
| 17 02 03 | plastic                                                                                                            |
| 17 03    | bituminous mixtures, coal tar and tarred products                                                                  |
| 17 03 02 | bituminous mixtures other than those mentioned in 17 03 01                                                         |
| 17 05    | soil and stones                                                                                                    |
| 17 05 04 | soil and stones other than those mentioned in 17 05 03                                                             |
| 17 05 06 | dredging spoil other than those mentioned in 17 05 05                                                              |
| 17 05 08 | track ballast other than those mentioned in 17 05 07                                                               |
| 17 06    | insulation materials                                                                                               |
| 17 06 04 | insulation materials other than those mentioned in 17 06 01 and 17 06 03                                           |

| EWC      | Description                                                                                            |
|----------|--------------------------------------------------------------------------------------------------------|
| 17 08    | gypsum-based construction material                                                                     |
| 17 08 02 | gypsum-based construction materials other than those mentioned in 17 08 01                             |
| 17 09    | other construction and demolition wastes                                                               |
| 17 09 04 | mixed construction and demolition wastes other than those mentioned in 17 09 01, 17 09 02 and 17 09 03 |

**Appendix B: Format for summary records of wastes accepted and removed (Condition 7.2.2)**

**3 Waste received on site**

Please read the guidance notes 'How to fill in the form', and use the continuation sheet WMS3W provided, or a copy of it, if you need to. In the last column, D = final disposal, U = used on site, F = from another facility, for example a transfer station.

| Origin | Description of waste | EWC code |  |  |  |  |  | Municipal source (Y/N) | Bio-degradable (Y/N) | State | Amount | Units | Pre-treatment | Additional information   |                          |                          |

## **EXPLANATORY NOTES - including rights of appeal.**

### **RIGHTS OF APPEAL**

Section 43(1) of the Environmental Protection Act 1990 provides that:

Where, except in pursuance of a direction given by the Secretary of State, the conditions of a licence are modified, the licence holder may appeal from the decision to the Secretary of State.

Therefore, if you feel aggrieved by the decision detailed on the attached notice, you may obtain the appropriate form on which to give written notice of an appeal from :-

The Planning Inspectorate  
Room 4/19  
Eagle Wing, Temple Quay House  
2 The Square  
Temple Quay  
Bristol  
BS1 6PN

For Wales, the address is – The Planning Inspectorate  
Crown Buildings  
Cathays Park  
Cardiff  
CF10 3NQ

Tel: 0117 372 8812  
Fax: 0117 372 6093

Tel: 02920 823859  
Fax: 02920 825150

This notice of appeal should be accompanied by the following information:

A statement of the grounds of appeal;

A copy of any application to modify the licence

A copy of the licence;

A copy of any correspondence relevant to the appeal;

A copy of any other document relevant to the appeal including, in particular, any relevant consent, determination, notice, planning permission, established use certificate or certificate of lawful use or development and

A statement indicating whether you wish the appeal to be in the form of a hearing or on the basis of written representations.

You are also required to serve a copy of your notice of appeal, together with copies of any the above documents that have accompanied your notice of appeal, on the Environment Agency (at the address overleaf). You should appeal within 6 months of the date that this notice takes effect but the Secretary of State may allow notice of appeal to be given after the expiry of this time period.
