IPPC improvement conditions, Housing review and Drainage review for Lower Pant Farm, PPC Permit No. RP3833UR

Dear Mr Morgan

As part of your IPPC poultry permit you will have two standard improvement conditions which require you to complete a housing and drainage review by 30/09/08. I have enclosed the guidance and forms needed to complete each review. Please could you make every effort to ensure that the reviews are completed by the deadline set by the improvement conditions. Once the reviews have been completed return them to the address marked below.

Please contact me if you need assistance or have any questions about this letter or the regulations.

Yours sincerely

GERAINT RICHARDS
