Oil tank bunding

Dear Mr Morgan

Further to our conversation earlier today regarding my letter dated the 3rd of March, I am writing to confirm that there is no need for you to bund your oil storage in the permitted area. This is due to it being a mobile tank/generator. However, I would recommend moving it to a location that would reduce the risk of pollution running to the surface water drain in the yard.

Please contact me if you have any queries.

Yours sincerely

GERAINT RICHARDS
