Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

This was an unannounced inspection by the new regulating officer Steven White who was accompanied around site by Steve Whitaker.

There were no issues observed on site

Since the last inspection a new compactor has been installed, the compactor waste goes to the PHS plant in Smethwick, sharps waste is taken to SRCL Ltd in Bolton and the air freshener waste is taken by waste UK to Tamworth

Waste Transfer Notes were checked during the inspection - no issues found

The site ID board will need updating to show the new NRW incident hotline number, it currently shows the 0800 80 70 60 number - this still works but will eventually be phased out of use. The number to put onto it is 03000 65 3000.

Thank you for your time during the inspection, please find my contact details below.
