Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
C2 - General Management - Management system and operating procedures	X	

KEY: See Section 5 for breach categories, suspended scores will be indicated as such.
A = Assessed or assessed in part (no evidence of non-compliance), **X** = Action only,
O = Ongoing non-compliance, not scored.

Number of breaches recorded	0	Total compliance score (see section 5 for scoring scheme)	0

If the Number of breaches recorded is greater than zero, please see Section 3 for our proposed enforcement response

This was a routine unannounced site inspection at the waste transfer station by Environment Officer Paul Challender. During the visit the weather was still and dry after a period of rain. Mr Kevin and Cai Humphreys accompanied the inspecting officer throughout the inspection.

Site was operational during the inspection with waste being processed through the trommel and picking line with wastes being actively segregated and sorted.

The compound and inside the transfer building was tidy and well organised with processed wastes segregated and stored on appropriate surfaces and covered from the elements. The site is still in a period of redevelopment with the building being extended to provide a larger transfer building in which to store and process wastes out of the weather.

During the inspection the recently submitted Fire Prevention & Mitigation Plan (FPMP) was discussed. The FPMP was submitted within the required timeframe and it was evident on site that the operator is complying with this document in it's day to day activities. There are a few minor points in the plan which need to be improved and separate communication will follow outlining the required changes and an action only has been placed on the operator in this CAR form to update the FPMP by the 18th May 2018.

At the end of the visit a selection of paperwork was viewed. The Site Diary, check sheets and maintenance logs were in good order and a small number of transfer notes were viewed and were appropriately completed.

Thank you for your time during this inspection.

Paul Challender - Environment Officer

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition.
Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

Criteria Ref.	**CCS Category**	**Action required/advised**	**Due Date**
See Section 1 above			
C2	X	Amend FPMP in accordance with observations provided by the regulating officer.	18/05/2018

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply
