A routine site inspection was undertaken on Tuesday 20th December 2016.

At the time of the inspection, the site was closed. On entering the yard it was clear that large amounts of waste (End-of-life vehicles, scrap) have been removed from site.

Waste oils/fluids appear to be stored in an appropriate manner and there were no signs of leaks/spillages.

It was noted that you intend to use part of the yard for storage activities (with containers). This impact this new business activity has on your permitted operations will be assessed in the next compliance visit.

No non-compliances were recorded during the inspection.

Can you please provide the following information by Monday 16th January 2017;

* Confirmation of the role Mr. David Jonathan Evans plays in the business. Mr. Evans is the permit holder.

* An updated copy of the Environment Management System (workplan) for the site.

Thank you for your time during the inspection.
