CIVIC AMENITY SITE, EASTERN AVENUE, WATERLOO INDUSTRIAL ESTATE, PEMBROKE DOCK

NOTES

THESE NOTES ARE FOR GENERAL GUIDANCE ONLY AND DO NOT CONSTITUTE AN AUTHORITATIVE STATEMENT OF THE LAW.

1. This licence relates only to the requirements of the Environmental Protection Act 1990 for the deposit, treatment, keeping or disposal of control waste and the use of plant or equipment subject to the conditions set out in the Schedules and does not constitute a consent required by other legislation. In particular it is the responsibility of the licence holder to comply with any requirements of the HEALTH AND SAFETY AT WORK ACT 1974, the RADIOACTIVE SUBSTANCES ACT 1960, the TOWN AND COUNTY PLANNING ACTS, BUILDING REGULATIONS, the ENVIRONMENTAL PROTECTION ACT 1990, and ALL RELEVANT WATER PROTECTION and ENVIRONMENTAL HEALTH legislation.
2. If the licence holder ceases to occupy the land specified above, then he may transfer the licence to the new occupier after making a duly made application to the Waste Regulation Authority who will determine the said application.
3. If the licence holder wishes to surrender this licence, he must make a duly made application to the Waste Regulation Authority.

CONTRAVENTION OF LICENCE CONDITIONS

Your attention is drawn to the provisions of Sections 33, 37, & 38 of the Environmental Protection Act 1990. A brief resume is included.

Section 33

Prohibits under penalty the deposit, treatment, or keeping or disposal of controlled waste, otherwise than in accordance with the terms of the licence. This Section applies to all the conditions contained herein, including any which may be the subject of an appeal to the Secretary of State under Section 43 of the Act. Any relevant act which takes place without compliance with all the licence conditions may lead to prosecution under this Section.

Section 38

Non compliance with any licence conditions may lead to the revocation of this licence.

Section 42

While a licence is in force it shall be the duty of the waste regulation authority which granted the licence to take the steps needed for the purpose of ensuring that the activities authorised by the licence do not cause pollution of the environment or harm to human health or become seriously detrimental to the amenities of the locality affected by the activities and for the purpose of ensuring that the conditions of the licence are complied with.

Where it appears to a waste regulation authority that the condition of licence granted by it is not being complied with, then without prejudice to any proceedings under section 33 above, the authority may require the licence holder to comply with the condition within a specified time and if in the opinion of the authority the licence holder has not complied with the condition within that time revoke the licence entirely or suspend the licence so far as it authorises the carrying on of the activities suspended in the licence, or as the case maybe, the activities specified by the authority in suspending the licence.

Section 59

The licensing authority is empowered to require the removal of any controlled waste deposited in circumstances where any of the conditions of this licence are not being complied with.

Penalties under Section 33

A person who contravenes Section 33 shall upon summary conviction be liable to imprisonment for a term not exceeding not exceeding six months or a fine not exceeding £20,000 or both and on conviction on indictment, to imprisonment for a term not exceeding two years or a fine or both.

A person who commits an offence under this section relation to special waste shall be liable on summary conviction, to imprisonment for a term not exceeding six months or a fine not exceeding £20,000 or both or on conviction on indictment to imprisonment for a term not exceeding five years or a fine or both.

SCHEDULE A - DEFINITIONS.

The following meanings shall apply throughout this licence:

1. WORKING PLAN shall mean the operational statement together with Drawing Nos. 1040/01(A) contained in Schedule E.
2. THE ACT shall mean the Environmental Protection Act 1990.
3. WASTE REGULATION AUTHORITY shall have the meaning assigned to it in Section 30(1) of the Environmental Protection Act 1990.
4. DULY AUTHORISED OFFICER shall mean any person authorised in writing by the Regulation Authority pursuant to Section 68 of the Environmental Protection Act 1990.
5. POLLUTION OF THE ENVIRONMENT shall have the meaning assigned to it in Section 29(3) of the Environmental Protection Act 1990.
6. LICENCE HOLDER shall mean the person or persons to whom this licence is granted.
7. DESIGNATED OFFICER shall mean the person, nominated by the licence holder, responsible for the security and satisfactory operation of the facility.
8. FIT AND PROPER PERSON shall have the meaning assigned to it in Section 74 of the Environmental Protection Act, 1990.

A person shall not be treated as fit and proper person if it appears to the authority that he or another relevant person has been convicted of a relevant offence;

that the management of the activities are or are to be authorised by the licence are not or will not be in the hands of a technically competent person, or

that the person who holds or is to hold the licence has not made and either has no intention of making or is in no position to make financial provision adequate to discharge the obligations arising from the licence.

A technically competent person for the purpose of this licence means a person who is in the possession of:-

- a) Certificate of Technical competence (COTC) or
- b) A provisional certificate of Technical competence (PCOTC) or
- c) A certificate of Qualifying Experience (CQE)

for level (3) (4) as issued by the Waste Management Industry Training Board (WAMITAB)

or on the 10th August 1994 is 55 years of age or over and in the 10 years ending on that date he has had at least 5 years experience as the manager of a facility at the equivalent level mentioned above. This competence shall apply only until 10th August, 2004.

or is deemed competent by virtue of S77(2) of the Environmental Protection Act 1990 and has been included in a list of managers notified in writing to the Waste Regulation Authority.

A 'proficient person' shall be a person trained to understand the terms and conditions of this licence, to recognise the general descriptions of waste that may arrive at the facility, and actions to be taken to deal with such wastes and what action to take in the event of an emergency. The person shall have direct access to the person or persons making up the technically competent management of the site.

9. APPROPRIATELY QUALIFIED PERSON shall mean a recognised Consultant Engineer or other such appropriately qualified persons as may be approved in writing by the Waste Regulation Authority.
10. SPECIAL WASTE shall have the meaning assigned to it in Section 2(1) of the Control of Pollution (Special Waste) Regulations 1980.
11. FLAMMABLE shall have the same meaning Schedule 1, Part 1, of the Classification, Packaging and Labelling of dangerous Substances Act 1984.
12. DRUM CONTAINER shall mean any container in which material is stored. Such containers having storage capacities less than 10 litres or greater than 250 litres shall not be regarded as drum containers for the purpose of this licence.
13. EMERGENCY shall mean a case where a person has reasonable cause to believe that circumstances exist which are likely to endanger life or health or cause damage to property or pollution of water.
14. OPERATING shall mean the deposit, keeping or treatment of waste or acceptance of waste for deposit, keeping or treatment and all matters incidental thereto.
15. Notwithstanding the above, words and phrases in this licence have the meaning ascribed to them by the Environmental Protection Act 1990 and its associated regulations.

SCHEDULE B. - SITE PREPARATION.

1. The preparatory works required by conditions 2 to below 10 shall be supervised and certified, by an appropriately qualified person, that they have been constructed in accordance with the working plan. Certification shall be forwarded to the Regulation Authority and no waste material shall be accepted at the facility until the Regulation Authority confirms, in writing, that the certification has been received.

Site Infrastructure

2. Perimeter fencing and gates shall be provided and maintained at all times in accordance with the working plan. The gates shall be securely locked at all times when the facility is unattended. Any damage to the gates and fencing which impairs their effectiveness will be repaired by the end of the working day and if this cannot be accomplished the licence holder shall provide security personnel to guard the facility until such repair is effected.
3. An identification board of durable material and finish shall be displayed at the entrance to the facility at the location specified in the working plan. The following information shall be provided:
 - (a) Name, address and telephone number of facility;
 - (b) Name, address and telephone number of the Disposal Authority responsible for issuing this Licence and the Disposal Licence Number;
 - (c) Hours of operation (as per licence condition);
 - (d) Name, address and telephone number of Licence Holder;
 - (e) Twenty-four hour emergency telephone number and contact.

The board shall be maintained in a legible condition at all times.

4. A site control office of the type specified in the working plan shall be provided at the location specified in the working plan. The site control office shall be maintained to the original standard specified in the working plan.
5. Site access roads shall be constructed and monitored to the original standard specified in the working plan.
6. Site drainage facilities shall be constructed and maintained in accordance with the working plan so that water does not accumulate at the facility. These shall include interception of contaminated surface waters and spillages, to prevent water pollution.
7. Artificial lighting shall be provided for those operations which are to be carried out during the hours of darkness, as defined by the statutory lighting up times published by the Science Research Council, at the locations specified and as specified in the working plan. The lighting shall be maintained to the original standard as specified in the working plan.

8. Storage containers for liquids shall be surrounded by an impermeable barrier as detailed in the working plan. The impermeable barriers shall be maintained to the original standard specified in the working plan. The containers shall be of a type and construction suitable for the liquids which they contain and labelled to show their contents. They shall conform, to all relevant safety and construction standards and shall be maintained to the original standard specified in the working plan.
9. The yard area at the facility shall be surfaced and maintained in accordance with the working plan. Hard surfaces shall be steam cleaned as necessary or when requested by the Disposal Authority.
10. Provision shall be made within the confines of the facility for the parking, loading and unloading of vehicles transporting wastes to and from the facility in accordance with the working plan.

Emergency Plan.

11. An emergency plan shall be provided within two months of the granting of this licence detailing the procedures to be adopted in the event of the release of any hazardous material, liquid or gas. The Health and Safety Executive, British Gas, the local Environmental Health Department, National Rivers Authority, the emergency services and the Disposal Authority shall be consulted when drawing up these procedures.
12. The emergency plan required by condition 11 above shall be reviewed at six monthly intervals and it shall also be updated whenever necessary to take account of changes in personnel or other circumstances. The updated emergency plan shall be forwarded forthwith to the Waste Regulatory Authority.

SCHEDULE C. - TYPES OF WASTE

Permitted Waste

1. The types of waste accepted at the facility and the maximum quantity stored shall consist only of the following:

Waste	Maximum Quantity	Location
Domestic	400m ³	(as shown on 1040/01(A))
Industrial		
Recyclable		
Batteries	50 in number	
Waste oil	200 gallons	

Excluded Wastes

2. Notwithstanding the generality of the types of waste specified in this Schedule the following wastes shall be specifically excluded from delivery to the facility.
 - (a) Controlled waste being defined as 'Special Waste' in the Control of Pollution (Special Waste) Regulations 1980 and any subsequent amendments, except those listed in paragraph 1 above.
 - (b) Substances within the Control of Radioactive Substances Act 1960 and any subsequent amendments.
 - (c) Percussives and explosives and other substances with similar characteristics, except where such wastes are in such a form or state where the percussive or explosive properties are and will remain ineffective.
 - (d) Any waste containing substances listed in the Highly Flammable Liquids and Liquid Petroleum Gases Regulations 1972.

SCHEDULE D. - OPERATIONS.

1. The licence holder shall operate the facility in accordance with the working plan as agreed by the Disposal Authority and contained in Schedule G of this licence.
2. Any proposed modification to the agreed working plan shall be submitted to the Disposal Authority together with the proposed date of implementation at least 4 weeks before the proposed date of such implementation.
3. The licence holder shall obtain the written agreement of the Disposal Authority for any proposed modification to the actual conduct of the operations from the proposals agreed in the working plan.
4. The types of wastes accepted at the facility shall consist of those specified in Schedule C of this licence. All wastes shall be visually inspected to ensure that they conform with the requirements of Schedule C of this licence. Any wastes not conforming to the requirements of Schedule C shall be rejected as unsuitable for disposal at the facility.
5. Each container used for storage shall be of sound physical condition and marked with the waste type title as detailed in the working plan. Wastes shall be stored according to waste types in the segregated storage areas as detailed in the working plan.
6. The Disposal Authority shall be notified immediately of any waste that has been rejected as unsuitable for disposal in accordance with condition 4 above and Schedule C of this licence. This notification shall include the nature and quantity of waste, the name and address of the producer of the waste, the registration number of the vehicle delivering the waste, the name and address of the vehicle's driver and operator, and the time of rejection of the waste.
7. During all operational and maintenance periods the facility shall be manned by a "proficient person". That person shall have access to the technically competent manager of the site as set out in the working plan. Two members of staff must be present during operational hours. Where for any reason the persons included in the list of technically competent management change then that change must be notified in writing to the Waste Regulation Authority within 14 days. This notification shall include the qualifying details of new managers.

8. Permitted wastes shall be delivered to and removed from the facility between the hours specified below. Except in cases of emergency, no delivery or removal of waste shall take place outside these hours without the prior approval of the Disposal Authority. All circumstances of emergency movement of such wastes shall be reported forthwith in writing to the Disposal Authority.

	Summer	Winter
	1st April - 30 Sept	1st Oct - 31st March
Daily	From: 0800 To: 1900 (except Christmas Day)	From: 0800 To: 1700

9. A written record shall be kept of the characteristics and quantities of all non recyclable wastes delivered to the facility, the name and address of the person delivering the waste, the date and time of the delivery, and identification of the origin of the waste. This record shall be available to any representative of the Disposal authority for inspection at the facility at any reasonable time.
10. A summary of all wastes delivered to the facility in a calendar month shall be submitted to the Disposal Authority before the fourteenth day of the succeeding calendar month.
11. No waste material shall be burnt within the boundaries of the facility. Any outbreak of fire shall be regarded as an emergency and immediate action shall be taken to extinguish it. Fire fighting equipment and emergency water supplies shall be provided, maintained and identified in accordance with the working plan. All outbreaks of fire shall be reported immediately to the County Fire Brigade and the Disposal Authority.
12. In the event of an emergency, the appropriate procedures specified in the emergency plan required by condition 11 of Schedule B shall be implemented. The Disposal Authority shall be informed forthwith of any emergency. The circumstances of an emergency shall be confirmed to the Disposal Authority in writing as soon as is practicable.
13. Measures shall be taken to remove any mud, debris or any other material that is deposited on any roadway by vehicles using the facility. These measures shall include the sweeping of the site access road, hard surfaced areas and the public highway leading from the facility.
14. Measures shall be taken to prevent damage to pipework, valves, pumps and storage tanks which may cause pollution of water, danger to public health to be seriously detrimental to the amenities of the locality.
15. All vehicles carrying light wastes shall be adequately covered to prevent any loss of contents by wind or vehicle movements.

16. Any loose waste on or around the facility shall be collected on a daily basis and disposed of in accordance with the working plan.
17. Any spillages shall be dealt with immediately to prevent water pollution. Quantities of sand/absorbent material shall be kept at the facility as detailed in the working plan and used on all appropriate spillages.
18. Cleaning chemicals and reagents shall be stored and segregated according to compatibilities as detailed in the working plan.
19. Measures in accordance with the working plan shall be taken to deal effectively with any vermin and insects at the facility.
20. Measures, including proper maintenance and use, shall be undertaken to control the noise of machinery and vehicles operating at the facility which may be detrimental to the amenities of the locality.
21. Measures in accordance with the working plan shall be taken to effectively suppress dust and malodours which may be detrimental to the amenities of the locality.
22. Any cessation of operations for a period in excess of 12 weeks shall be notified to the Disposal Authority. Not less than 14 days notice shall be given to the Disposal Authority of the date on which operations are to recommence in the event of such a cessation.
23. A copy of any notice or instruction received in respect of the facility from any authority, other than the Disposal Authority, which in any way relates to the use of the facility, shall be given to the Disposal Authority within 3 days of the receipt of such a notice or instruction.
24. The terms of this licence shall be made known to any person who is given responsibility for the management or control of the facility and be available at all times at the facility for the use of such persons.
25. Notwithstanding the generality of the conditions in this Schedule, the activities to which this licence relates shall not be carried on so as to cause pollution to water or danger to public health or become seriously detrimental to the amenities of the locality affected by the activities.
