Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
B3 - Infrastructure - Site drainage engineering (clean and foul)	X	
B4 - Infrastructure - Containment of stored materials	A	
C1 - General Management - Staff competency/training	A	
C4 - General Management - Storage, handling labelling and Segregation	A	
D1 - Incident Management - Site security	A	

KEY: See Section 5 for breach categories, suspended scores will be indicated as such.

A = Assessed or assessed in part (no evidence of non-compliance), **X** = Action only, **O** = Ongoing non-compliance, not scored.

Number of breaches recorded	0	Total compliance score (see section 5 for scoring scheme)	0
------------------------------------	----------	---	----------

If the Number of breaches recorded is greater than zero, please see Section 3 for our proposed enforcement response

Section 2 – Compliance Assessment Report Detail

- The part(s) of the permit that were assessed (eg. Maintenance, training, combustion plant, etc)
- Where the type of assessment was 'Data Review' details of the report/results triggering the assessment
- Any non-compliances identified
- Any non-compliances with directly applicable legislation
- Details of any multiple non-compliances
- Information on the compliance score accrued inc.
- Details of advice given
- Any other areas of concern
- Any actions requested
- Any examples of good practice
- A reference to photos taken

Visit report/comments:

This was a routine site inspection carried out by Rachel Twiss. The weather was fair and dry. Matt Davison accompanied me throughout the inspection.

Observations:

The site looked to be in good order, however there was a lot of standing water present on the left hand side of the site where a lot of plant is stored. The water had an oily sheen to it and one of the plant was leaking an oily looking substance. Matt informed me that this was not oil, but a water-based bitumen type product. On this occasion you will not be scored, however this issue must be addressed as soon as possible and further action will be taken if appropriate.

I could not locate a copy of an Environment Management System for your site on our system, could you please provide an electronic copy for our files.

Hazardous Waste Regulations – Premises notification requirements

Within Wales, under the Hazardous Waste Regulations if you produce or store over 500kg of hazardous waste per year at your premises, the premises are required to be registered with Natural Resources Wales unless exempt.

Recently within England, changes have taken place regarding the requirement to register premises. Please note that these changes are within England only, the requirement of premises registration within Wales has not changed and remains the same.

You may already be aware of this requirement and your premises may already be registered with Natural Resources Wales, however if not, you may wish to consider if your premises should be registered. In order to establish this and for details on if your premises maybe exempt a detailed guidance document titled 'Do I need to notify my premises? – A guide to the Hazardous Waste Regulations' is available via our website www.naturalresourceswales.gov.uk and by using the following file path 'Apply for a permit' > 'Waste' > Register as a producer of hazardous waste'.

Should you need to register your premises, details of how to do this can also be found via our website using the file path above.

Many thanks for your time on site.

regards

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition. Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Other than the provision of advice and guidance, at present we do not intend to take further enforcement action in respect of the non-compliance identified above. This does not preclude us from taking enforcement action if further relevant information comes to light or advice isn't followed.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

Criteria Ref.	CCS Category	Action required/advised	Due Date
See Section 1 above			
B3	X	A lot of standing water was present on site, some of which looked to have an oily sheen	31/08/2016

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply

Non-compliance scores and categories
