Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

A routine visit was conducted on the 19 May 2016 by Environment Officers Leon Williams and Julie Hughes, accompanied by site manager Wayne Evans. The weather was overcast with light showers. The inspection acted as a handover visit for the new Inspecting Officer, Leon Williams. My contact details are as follows:

Telephone: 03000 653778.

Email: leon.williams@cyfoethnaturiolcymru.gov.uk

Generally, the site was seen to be kept tidy and well organised. One surface water drain near the road sweepings bay was seen to be heavily blocked with mud and debris. Please ensure that this drain is cleaned and remains free of blockages. A CCS Category 4 score has been recorded against this non compliance.

A breach in the rear road sweepings bay had been repaired.

Please keep me up to date with the Councils progress with regards to the proposed new MRF site in Mochdre.

Thank you for your co-operation.

Summary of breaches noted upon this inspection: CAR sub-criteria - B3 - Site drainage engineering (clean and foul), Permit Condition 2.1.2, Compliance Classification Scheme Score Category 4.
