

AJT Recycling Ltd Covering Letter 9th February 2016

AJT Recycling Ltd (AJT) has operated a bespoke permit for a mixed metal recycling site since December 2011. The waste management activities include the depollution and dismantling of end of life vehicles, and the storage, sorting and manual treatment of scrap metals. This is under Permit number EPR/BB373RS.

AJT employs approximately 16 people at its site at Plot P1 Felinfach, Swansea.

Since the major reduction of scrap metals prices, there has been a dramatic reduction in materials being received at the site which is compromising the sustainability of the operation.

To mitigate this and avoid redundancies, AJT proposes to vary its bespoke permit to operate two Standard Rules permits from the site, notably SR 2008 No.3 and SR 2012 No.14. This will enable the recovery of additional metal waste from their own skips, as opposed to relying on 3rd parties.

Credit and debit card payments only

Fill in this form if you are paying by credit or debit card. Send it to us along with your application form and other supporting documents.

We can accept payments by MasterCard, Maestro or Visa cards only.

Please fill in the following details.

Please take £ 3,260.00 from my account.
