Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This is a regulator initiated variation of a tier 3 landfill permit to:

- incorporate the closure report approved by Natural Resources Wales;
- reduce the waste input for disposal to zero;
- include a condition requiring the operator to maintain a closure and aftercare management plan.

This permit variation reflects the status of the site as being in definite closure.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
