

Notice of request for more information

Environmental Permitting (England and
Wales) Regulations 2016

Notice requiring further information

To:
Company Secretary
Earthmover's House
(Unit 16)
Llantrisant Business Park
Llantrisant
Rct
United Kingdom,
CF72 8LF

Application number: PAN- 003081

Natural Resources Wales, in exercise of its powers under paragraph 4 of Part 1 of Schedule 5 of the above Regulations, requires you to provide the information detailed in the attached schedule. The information is required in order to determine your application for a permit, dated **20/08/18**.

Information should be sent to:

magda.leonowicz@naturalresourceswales.gov.uk

Name	Date
Magda Leonowicz	29/11/2018

Authorised on behalf of Natural Resources Wales

Schedule

The hydraulic hammer

1. Manufacturers specifications

For us to be able to assess the risk of noise, we need more details about the hydraulic hammer which will be used at the site.

Please provide the model name and number, and the manufacturers specifications of the hydraulic hammer.

2. Time of operations

The Noise Management Plan states: 'the hydraulic hammer will be used between 10:00 and 15:00 and when the wind direction allows for the noise dispersal across the woodland and farmlands.' Taking this statement into consideration, we assume that the operations involving the hydraulic hammer will take place between 10:00-15:00 every day continuously.

Please clarify if this is correct, if not correct, how many times and how many hours per week the operator intends to use the hydraulic hammer. Would the hammer be used in the weekends too?

3. Noise nuisance

In the Noise Management Plan in the 'On-site Monitoring' section it has been stated that if 'any elevated levels of noise created by the hammer identified off site is communicated to the site supervisor. The activity is then stopped immediately'

Please clarify what action will be taken after stopping the activity. What measures will be put in place before starting the activity again, and how the operator will ensure there won't be any further noise nuisance?

4. Mitigation measures

In the Noise Management Plan in the section Mitigation Measures, you have not provided the level of risk after the mitigation measures are put in place.

Please provide this information for each source in the table in this section.

Please provide the amended EMS and Noise Management Plan. Please provide the requested information by 12/12/18.
