Permitted Wastes

The permitted wastes listed in Table 9A and 9D, will not preclude acceptances of wastes from sources of

- (i) fly tipping
- (ii) miscellaneous or unidentified items from civic amenity sites
- (iii) other wastes requiring emergency uplift (due to waste posing a threat to the environment or to human health)

Under these circumstances the Environment Agency will be informed in writing of the nature and volume of waste, and arrangements made for the onward transfer away from the Carmarthen site as soon as practicably possible.

The transfer station is limited to receiving **up to 10 tonnes of hazardous waste per day**. (Note that this volume does not include wastes that are treatable via any of the existing routes on site, since they are already acceptable under the conditions of the Working Plan. The 10 tonnes limit refers to wastes that are transferred on from site (following storage, consolidation, repackaging, or other necessary operations).

European Waste Catalogue References

Note that the waste entries within the European Waste Catalogue may be amended or updated from time to time (through changes to Directives or legislation). Mekatek Limited will inform the Environment Agency in writing of any associated amendments made to Table 9D.

Entries ending 99 (waste not other specified) will only be accepted to the BTP, HSB, FOSA and SOB in accordance with the waste types defined in section 2 of the Working Plan. Entries ending 99 (waste not other specified) will only be accepted to the transfer station in accordance with tables 9A and 9C. Wastes may be liquid, solid or sludge in form.
