Permit number
EPR/WP3694FZ

Safety-Kleen U.K. Limited

Permit number EPR/WP3694FZ

Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

Schedule 1 of the Environmental Permitting Regulations was updated by the Environmental Permitting (England and Wales) (Amendment) Regulations 2013 to reflect the implementation of the Industrial Emissions Directive (IED) into England and Wales. Following this, Natural Resources Wales has varied Table 1.1 of the permit to include limits which the operator must operate below to remain a waste facility, resulting from the introduction of the Industrial Emissions Directive.

The site technically has the capacity to operate above the threshold limits detailed within the IED, specifically S5.6A(1)(a), temporary storage of hazardous waste with a total capacity exceeding 50 tonnes, however, they have chosen to put physical measures in place to operate below the threshold to remain permitted as a waste facility. Therefore, Natural Resources Wales has included these physical limits within the permit to incorporate them as an enforceable permit condition.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	Date	Comments
Permit issued EAWML 37218	26/04/01	Original permit issued to Safety Kleen UK Limited.
Modification determined	10/03/06	
Modification determined	28/11/07	Regulator-led variation to delete all existing conditions and replace with new conditions.
Variation determined EPR/WP3694FZ (previously EAWML 37218)	22/02/10	Administrative variation to change the registered office address of the permit holder.
Variation application EPR/WP3694FZ/V005	Duly Made 16/01/14	Administrative variation application to add 15 waste codes to the list of permitted wastes.
Variation determined EPR/WP3694FZ/V005	12/02/14	Varied permit issued with amended list of permitted waste types.
Permit issued EAWML 37218	26/04/01	Original permit issued to Safety Kleen UK Limited.
Modification determined	10/03/06	
Modification determined	28/11/07	Regulator-led variation to delete all existing conditions and replace with new conditions.
Natural Resources Wales initiated variation determined (EPR/WP3694FZ/V008).	03/07/15	Permit varied by Natural Resources Wales to impose waste operation limits on activities in line with the Industrial Emissions Directive

End of introductory note

Notice of variation

Environmental Permitting (England and Wales) Regulations 2010

The Natural Resources Body for Wales (“Natural Resources Wales”) in exercise of its powers under regulation 20 of the Environmental Permitting (England and Wales) Regulations 2010 varies

Permit number
EPR/WP3694FZ

issued to:
Safety-Kleen U.K. Limited (“the operator”)

of
Profile West
950 Great West Road
Brentford
Middlesex
England
TW8 9ES

company registration number **01190039**

to operate a regulated facility at
Safety-Kleen Broughton,
Unit 2
Broughton Mills Road
Broughton
Deeside
Flintshire
CH4 0BY

to the extent set out in the schedules.

The notice shall take effect from **07/07/15**.

Schedule 1 – conditions to be deleted

None

Schedule 2 – conditions to be amended

The following conditions are amended as detailed, following an NRW initiated variation

Table 1.1 is amended to the following:

Table 1.1 Specified Waste Management Operations		
Specified Waste Management Operation.	Permitted Waste Types which may be subject to the Specified Operation	Limits on Specified Waste Management Operations
D15: R13: Storage pending disposal or recovery other than on this site.	Special and non-special Household Commercial and Industrial Waste as specified in paragraph 1.2 and Tables 1 to 4 of the working plan.	No more than 112 tonnes of waste shall be stored on site at any one time. No more than 50 tonnes of hazardous waste to be stored on site at any one time. Maximum storage capacities for each type of waste shall be as specified in paragraph 1.2 of the working plan. No waste shall be kept on site for more than 28 days with the exception of fluorescent tubes which may be kept on site for a period of up to 84 days.

Schedule 3 – conditions to be added

None
