Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This is an operator led variation to extend the permitted boundary and to add a hydraulic hammer activity to break down aggregate before it is crushed in the crushing machine. The intention is to use the hydraulic hammer mostly twice a month.

No other changes are made to the permit.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
