

EA WML 34169.

PERMIT

**CONTROL OF POLLUTION ACT 1974**

OUTGOING

**DISPOSAL LICENCE - TRANSFER STATION**

Reference No. 930014.

The South Pembrokeshire District Council in pursuance of the powers conferred on them by the Control of Pollution Act 1974, hereby licence: **LAS (Waste) Ltd.**

of **Tregaron Road, Lampeter, Dyfed, SA48 8LT.**  
(hereinafter called the 'licence holder')

to operate a waste transfer station

on land edged red on the attached plan (930014) at Unit A, Waterloo Industrial Estate, Pembroke Dock.

This licence is granted subject to the conditions set out in the schedules attached hereto.

Dated this 29th day of January 1996

Signed .....  
(Authorised Officer)

The licence holder's attention is drawn to the notes overleaf

## **NOTES**

**THESE NOTES ARE FOR GENERAL GUIDANCE ONLY AND DO NOT CONSTITUTE AN AUTHORITATIVE STATEMENT OF THE LAW.**

1. This licence relates only to the requirements of the Control of Pollution Act 1974 for the deposit of waste and the use of plant or equipment subject to the conditions set out in the Schedules and does not constitute a consent required by other legislation. In particular it is the responsibility of the licence holder to comply with any requirements of the HEALTH AND SAFETY AT WORK ACT 1974, the RADIOACTIVE SUBSTANCES ACT 1990, the TOWN AND COUNTY PLANNING ACTS, BUILDING REGULATIONS, the ENVIRONMENTAL PROTECTION ACT 1990, and ALL RELEVANT WATER PROTECTION and ENVIRONMENTAL HEALTH legislation.
2. If the licence holder ceases to occupy the land specified above, then he may transfer the licence to the new occupier after giving notice to the Waste Regulation Authority who has the right to decline to accept the new licence holder.
3. If the licence holder wishes to cancel this licence he must return it to the Waste Regulation Authority together with a notice stating that he no longer requires the licence. Cancellation of the licence will not affect any outstanding liability of the licence holder under the conditions of the licence.

## **CONTRAVENTION OF LICENCE CONDITIONS**

Your attention is drawn to the provisions of Sections 3, 9, & 16 of the Control of Pollution Act 1974. A brief resume is included below.

### **Section 3**

Prohibits under penalty the deposits of waste or the use of plant or equipment, otherwise than in accordance with the terms of the licence. This Section applies to all the conditions contained herein, including any which may be the subject of an appeal to the Secretary of State under Section 10 of the Act. Any deposit which takes place without compliance with all the licence conditions may lead to prosecution under this Section.

### **Section 9**

Non compliance with any licence conditions may lead to the revocation of this licence.

### **Section 16**

The licensing authority is empowered to require the removal of any controlled waste deposited in circumstances where any of the conditions of this licence are not being complied with.

### **Penalties under Section 3**

A person who contravenes Section 3 subsection (1) shall, subject to subsection (4), be guilty of an offence and liable on summary conviction to a fine of an amount not exceeding scale 5 (currently £5,000) or on conviction on indictment to imprisonment for a term not exceeding two years or a fine or both.

The increased penalty may be given where a person contravenes Section 3(1) and the waste in question is poisonous, noxious and polluting, is likely to give rise to an environmental hazard, and has been brought for the purpose of being disposed of. Under such circumstances the person would be liable on summary conviction to imprisonment for a term not exceeding six months or a fine not exceeding scale 5 on conviction on indictment to imprisonment for a term not exceeding five years or a fine or both.

## **SCHEDULE A - DEFINITIONS.**

The following meanings shall apply throughout this licence:

1. **WORKING PLAN** shall mean the operational statement, hydrological and hydrogeological management statement together with Drawing Nos. W-004A and 930014 of the proposed facility contained in Schedule E.
2. **THE ACT** shall mean the Control of Pollution Act 1974 as amended.
3. **REGULATION AUTHORITY** shall have the meaning assigned to it in Section 30(1) of the Control of Pollution Act 1974.
4. **DULY AUTHORISED OFFICER** shall mean any person authorised in writing by the Regulation Authority pursuant to Section 90 (1) of the Control of Pollution Act 1974.
5. **ENVIRONMENTAL HAZARD** shall have the meaning assigned to it in Section 4(5) of the Control of Pollution Act 1974.
6. **LICENCE HOLDER** shall mean the person or persons to whom this licence is granted.
7. **DESIGNATED OFFICER** shall mean the person, nominated by the licence holder, responsible for the security and satisfactory operation of the facility.
8. **COMPETENT PERSON** shall mean a person who, through training and/or qualification is able to identify the nature of the waste delivered to the facility.
9. **APPROPRIATELY QUALIFIED PERSON** shall mean a recognised Consultant Engineer or other such appropriately qualified persons as may be agreed in writing by the Waste Regulation Authority.
10. **SPECIAL WASTE** shall have the meaning assigned to it in Section 2(1) of the Control of Pollution (Special Waste) Regulations 1980.
11. **FLAMMABLE** shall have the meaning assigned to it in Schedule 1, Part 1, of the Classification, Packaging and Labelling of dangerous Substances Act 1984.
12. **DRUM CONTAINER** shall mean any container in which material is stored. Such containers having storage capacities less than 10 litres or greater than 250 litres shall not be regarded as drum containers for the purpose of this licence.
13. **EMERGENCY** shall mean a case where a person has reasonable cause to believe that circumstances exist which are likely to endanger life or health or cause damage to property or pollution of water.
14. **OPERATING** shall mean the deposit of waste or acceptance of waste for deposit and all matters incidental thereto.

15. Notwithstanding the above, words and phrases in this licence have the meaning ascribed to them by the Control of Pollution Act 1974 and its associated regulations.

## **SCHEDULE B. - SITE PREPARATION.**

1. The preparatory works required by conditions 2 to 8 below shall be supervised and certified, by an appropriately qualified person, that they have been constructed in accordance with the working plan. Certification shall be forwarded to the Regulation Authority and no waste material shall be accepted at the facility until the Regulation Authority confirms, in writing, that the certification has been received.

### **Site Infrastructure**

2. Perimeter fencing and gates shall be provided and maintained at all times in accordance with the working plan. The gates shall be securely locked at all times when the facility is unattended. Any damage to the gates and fencing which impairs their effectiveness will be repaired by the end of the working day and if this cannot be accomplished the licence holder shall provide security personnel to guard the facility until such repair is effected.
3. An identification board of durable material and finish shall be displayed at the entrance to the facility at the location specified in the working plan. The following information shall be provided:
  - (a) Name, address and telephone number of facility;
  - (b) Name, address and telephone number of the Regulation Authority responsible for issuing this Licence and the Licence Number;
  - (c) Hours of operation (as per licence condition);
  - (d) Name, address and telephone number of Licence Holder;
  - (e) Twenty-four hour emergency telephone number and contact.

The board shall be maintained in a legible condition at all times.

4. A site control office of the type specified in the working plan shall be provided at the location specified in the working plan. The site control office shall be maintained to the original standard specified in the working plan.
5. Site drainage facilities shall be constructed and maintained in accordance with the working plan so that water does not accumulate at the facility. These shall include interception of contaminated surface waters and spillages, to prevent water pollution.
6. Provisions for the storage and maintenance of plant shall be constructed in accordance with the working plan and shall be maintained to the original standard specified in the working plan.
7. Artificial lighting shall be provided for those operations which are to be carried out during the hours of darkness, as defined by the statutory lighting up times published by the Science Research Council, at the locations specified and as specified in the working plan. The lighting shall be maintained to the original standard as specified in the working plan.

8. Provision shall be made within the confines of the facility for the parking, loading and unloading of vehicles transporting wastes to and from the facility in accordance with the working plan.

**Emergency Plan.**

9. An emergency plan shall be provided within two months of the granting of this licence detailing the procedures to be adopted in the event of the release of any hazardous material, liquid or gas. The Health and Safety Executive, British Gas, the local Environmental Health Department, National Rivers Authority, the emergency services and the Regulation Authority shall be consulted when drawing up these procedures.
10. The emergency plan required by condition 9 above shall be reviewed at six monthly intervals and it shall also be updated whenever necessary to take account of changes in personnel or other circumstances. The updated emergency plan shall be forwarded forthwith to the Regulation Authority.

## **SCHEDULE C. - TYPES OF WASTE**

### **Permitted Waste**

1. The types of waste acceptable at the facility and the maximum quantity stored shall consist only of the following:

<b>Waste</b>	<b>Maximum Quantity</b>	<b>Location</b>
Domestic and Commercial	120 m <sup>3</sup>	Within containers stored inside the waste transfer building

No more than 5,000 tonnes of waste will be handled at the facility in a year.

### **Excluded Wastes**

2. Notwithstanding the generality of the types of waste specified in this Schedule the following wastes shall be specifically excluded from delivery to the facility.
  - (a) Controlled waste being defined as 'Special Waste' in the Control of Pollution (Special Waste) Regulations 1980 and any subsequent amendments, except those listed in paragraph 1 above.
  - (b) Substances within the Control of Radioactive Substances Act 1960 and any subsequent amendments.
  - (c) Percussives and explosives and other substances with similar characteristics, except where such wastes are in such a form or state where the percussive or explosive properties are and will remain ineffective.
  - (d) Any waste containing substances listed in the Highly Flammable Liquids and Liquefied Petroleum Gases Regulations 1972.
  - (e) Liquid waste.

## **SCHEDULE D. - OPERATIONS.**

1. The licence holder shall operate the facility in accordance with the working plan as agreed by the Regulation Authority and contained in Schedule E of this licence.
2. Any proposed modification to the agreed working plan shall be submitted to the Regulation Authority together with the proposed date of implementation at least 4 weeks before the proposed date of such implementation.

3. The licence holder shall obtain written agreement of the Regulation Authority for any proposed modification to the actual conduct of the operations from the proposals agreed in the working plan.
4. The types of wastes accepted at the facility shall consist of those specified in Schedule C of this licence. All wastes shall be visually inspected to ensure that they conform with the requirements of Schedule C of this licence. Any wastes not conforming to the requirements of Schedule C shall be rejected as unsuitable for disposal at the facility.
5. Each container used for storage shall be of sound physical condition and marked with the waste type title as detailed in the working plan. Wastes shall be stored according to waste types in the segregated storage areas as detailed in the working plan.
6. The Regulation Authority shall be notified immediately of any waste that has been rejected as unsuitable for disposal in accordance with condition 4 above and Schedule C of this licence. This notification shall include the nature and quantity of waste, the name and address of the producer of the waste, the registration number of the vehicle delivering the waste, the name and address of the vehicle's driver and operator, and the time of rejection of the waste.
7. The facility shall be manned and supervised during operating hours (see condition 8 below) in accordance with the working plan. Supervisors must be able to identify the types of waste permitted by this licence and those wastes specifically excluded.
8. Permitted wastes shall be delivered to and removed from the facility between the hours specified below. Except in cases of emergency, no delivery or removal of waste shall take place outside these hours without the prior approval of the Regulation Authority. All circumstances of emergency movement of such wastes shall be reported forthwith in writing to the Regulation Authority.

Mondays - Fridays	From: 0500
	To: 2000
Saturdays	From: 0500
	To: 1800
Sundays/Bank Holidays.	From: 07.30
	To: 16.30

9. A written record shall be kept of the characteristics and quantities of all wastes delivered to the facility, the name and address of the person delivering the waste, the date and time of the delivery, and identification of the origin of the waste.  
This record shall be available to any representative of the Regulation authority for inspection at the facility at any reasonable time.
10. A summary of the records required by condition 9 above of all wastes delivered to the facility in a calendar month shall be submitted to the Regulation Authority before the tenth day of the succeeding calendar month.

11. No waste material shall be burnt within the boundaries of the facility. Any outbreak of fire shall be regarded as an emergency and immediate action shall be taken to extinguish it. Fire fighting equipment and emergency water supplies shall be provided, maintained and identified in accordance with the working plan. All outbreaks of fire shall be reported immediately to the County Fire Brigade and the Regulation Authority.
12. In the event of an emergency, the appropriate procedures specified in the emergency plan required by condition 9 of Schedule B shall be implemented. The Regulation Authority shall be informed forthwith of any emergency. The circumstances of an emergency shall be confirmed to the Regulation Authority in writing as soon as is practicable.
13. Measures, in accordance with the working plan shall be taken to remove any mud, debris or any other material that is deposited on any roadway by vehicles using the facility. These measures shall include the sweeping of the site access road, hard surfaced areas and the public highway leading from the facility.
14. All vehicles carrying light wastes shall be adequately covered to prevent any loss of contents by wind or vehicle movements.
15. Any loose waste on or around the facility shall be collected on a daily basis and disposed of in accordance with the working plan.
16. Any spillage shall be dealt with immediately to prevent water pollution. Quantities of sand/absorbent material shall be kept at the facility as detailed in the working plan and used on all appropriate spillages.
17. Cleaning chemicals and reagents shall be stored and segregated according to compatibilities as detailed in the working plan.
18. Measures in accordance with the working plan shall be taken to deal effectively with any vermin and insects at the facility.
19. Measures, including proper maintenance and use, shall be undertaken to control the noise of machinery and vehicles operating at the facility which may be detrimental to the amenities of the locality.
20. Measures in accordance with the working plan shall be taken to effectively suppress dust and malodours which may be detrimental to the amenities of the locality.
21. Any cessation of operations for a period in excess of 12 weeks shall be notified to the Regulation Authority. Not less than 14 days notice shall be given to the Regulation Authority of the date on which operations are to recommence in the event of such a cessation.

23. A copy of any notice or instruction received in respect of the facility from any authority, other than the Regulation Authority, which in any way relates to the use of the facility, shall be given to the Regulation Authority within 3 days of the receipt of such a notice or instruction.
24. No wash water or cleaning agents shall be allowed to enter the off-site surface water drainage system. All cleansing operations shall be so conducted that contaminated water drains to the sealed tank only.
25. The sealed tank shall be checked sufficiently regularly to ensure that it does not overflow. Records shall be kept of movements of waste water from the site.
26. The terms of this licence shall be made known to any person who is given responsibility for the management or control of the facility and be available at all times at the facility for the use of such persons.
27. Notwithstanding the generality of the conditions in this Schedule, the activities to which this licence relates shall not be carried on so as to cause pollution to water or danger to public health or become seriously detrimental to the amenities of the locality affected by the activities.
