

(No 6)

Table 1a – Waste operations which do not form part of an installation

Name of the waste operation	Description of the waste operation	Annex IIA or IIB (disposal and recovery) code and descriptions	Hazardous waste treatment capacity (if this applies). See note 1	Non-hazardous waste treatment capacity (if this applies). See note 1
Add extra rows if you need them. If you do not have enough room go to the line below or send a separate document and give us the document reference here	Use the description from the guidance. Include any extra detail that you think would help to accurately describe what you want to do			
TREATMENT OF WASTE TO PRODUCE SOIL	TREATMENT OF WASTE PHYSICAL	R13.R5.R3	N/A	
SUB SOILS AND AGGREGATES				
For all waste operations	Total storage capacity (see note 2)		25,000 TONNE	
	Annual throughput (tonnes each year)		100,000 TONNE	

Notes

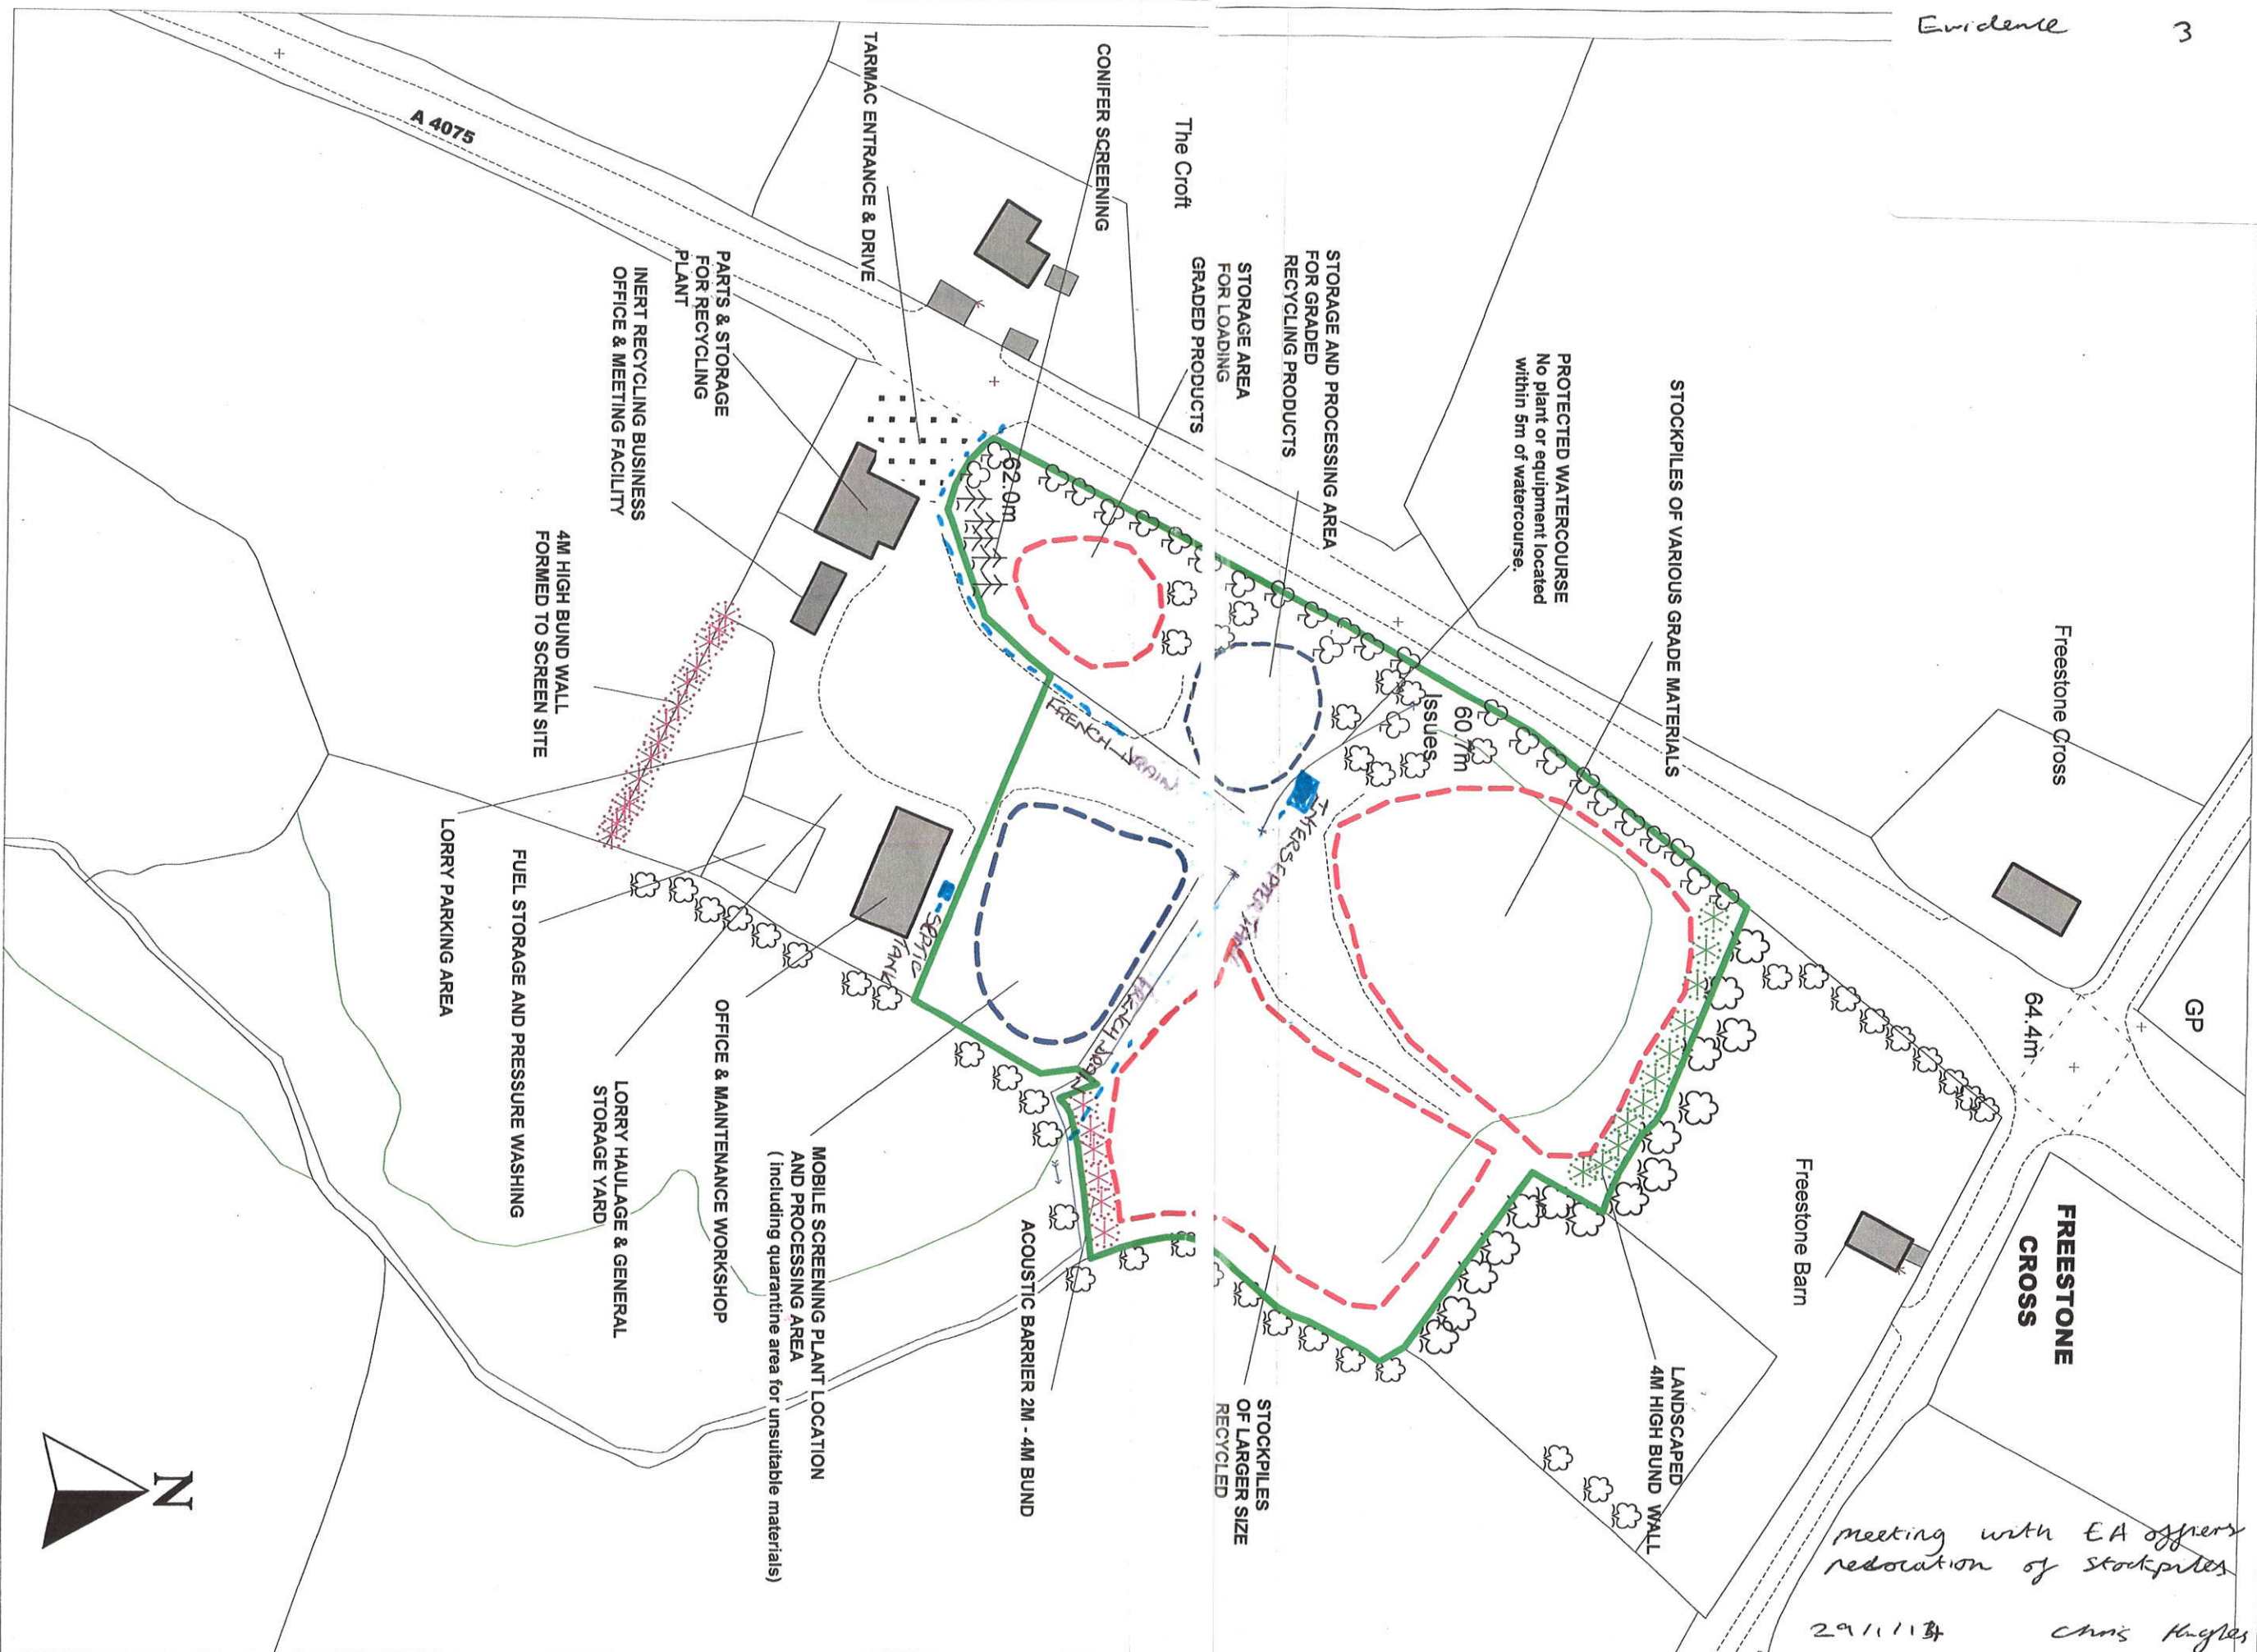

- 1 By 'capacity', we mean the total landfill capacity (cubic metres) for landfills, the total treatment capacity (tonnes each day) for waste treatment and the total storage capacity (tonnes) for waste storage operations.
- 2 By 'total storage capacity', we mean the maximum amount of waste in tonnes you store on the site at any one time.

WE WANT A REPLICA OF SR2010 NO12. BUT COULD NOT MEET THE RULE DUE TO CULVERTED WATERCOURSE THAT RUNS UNDER THE SITE.
