Permit number
EPR/RP3494FM

Gwrrtaith Gwynedd

Permit number EPR/RP3494FM

Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

Schedule 1 of the Environmental Permitting Regulations was updated by the Environmental Permitting (England and Wales) (Amendment) Regulations 2013 to reflect the implementation of the Industrial Emissions Directive (IED) into England and Wales. Following this, Natural Resources Wales has varied Table S1.1 of the permit to include limits which the operator must operate below to remain a waste facility, resulting from the introduction of the Industrial Emissions Directive.

The site technically has the capacity to operate above the threshold limits detailed within the IED, S5.4(A)(1)(b)(i) Biological treatment of non-hazardous waste with a capacity exceeding 75 tonnes per day, however, they have chosen to put physical measures in place to operate below the threshold to remain permitted as a waste facility. Therefore, Natural Resources Wales has included these physical limits within the permit to incorporate them as an enforceable permit condition.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	Date	Comments
Permit determined EAWML 37245	21/05/2004	Permit issued to Harri Morrus Parry
Application for variation EAWML 37245	01/01/2006	Application for variation to increase storage capacity of waste allowed at any one time to 3000 tonnes
Variation determined	15/02/2007	Varied permit issued to Harri Morrus Parry
Application EPR/RP3494FM/V003 (variation and consolidation)	Duly made 01/08/2011	Application to vary and update the permit to modern conditions
Variation determined EPR/RP3494FM	03/11/2011	Varied and consolidated permit issued in modern condition format.
Natural Resources Wales initiated variation EPR/RP3494FM/V004	01/07/15	Permit varied by Natural Resources Wales to impose waste operation limits on activities in line with the Industrial Emissions Directive

End of introductory note

Notice of variation

Environmental Permitting (England and Wales) Regulations 2010

The Natural Resources Body for Wales (“Natural Resources Wales”) in exercise of its powers under regulation 20 of the Environmental Permitting (England and Wales) Regulations 2010 varies

Permit number
EPR/RP3494FM

issued to:
Mr Harri Morrus Parry (“the operator”)

of
Glanllynau
Chwillog
Pwllheli
Gwynedd
LL53 6SJ

to operate a regulated facility at
Gwrtaiith Gwynedd
Glanllynau
Chwillog
Pwllheli
Gwynedd
LL53 6SJ

to the extent set out in the schedules.

The notice shall take effect from **07/07/15**.

Schedule 1 – conditions to be deleted

None

Schedule 2 – conditions to be amended

The following conditions are amended as detailed, following an NRW initiated variation.

- Table S1.1 is amended to the following:

Table S1.1 activities		
Activity reference	Description of specified activity and WFD Annex I and II operations	Limits of specified activity and waste types
A1	R3: Recycling/reclamation of organic substances which are not used as solvents (including composting and other biological transformation processes)	i) Secure storage of wastes listed in table S2.1
	R5: recycling/reclamation of other inorganic substances	ii) Physical treatment, composting and maturation of the types of waste listed in table S2.1
	D9: Physico-chemical treatment not specified elsewhere which results in final compounds or mixtures which are disposed of by any of the operations numbered D01 to D12	iii) The maximum quantity of waste being stored prior to composting, composted, and stored for maturation, shall not exceed 3,000 tonnes at any one time
	D14: Repackaging prior to submission to any of the operations numbered D01 to D13	iv) All shredding, composting and screening operations shall be carried on areas of impermeable pavement
	D15: Storage pending any of the operations numbered D01 to D14 (excluding temporary storage pending collection on the site where it is produced)	The biological treatment of waste for the purpose of recovery or a mix of recovery and disposal shall not exceed 75 tonnes per day. This limit includes material undergoing maturation
A2	R13: Storage of wastes pending any of the operations numbered R1 to R12 (excluding temporary storage, pending collection, on the site where it is produced)	i) The storage of waste prior to shredding, post shredding and prior to composting shall take place on areas of impermeable pavement provided in accordance with condition 2.1
		ii) No waste shall be stored on site prior to composting for longer than 5 days

Schedule 3 – conditions to be added

None
