Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
A1 - Specified by permit	A	
B3 - Infrastructure - Site drainage engineering (clean and foul)	A	
C1 - General Management - Staff competency/training	A	
D1 - Incident Management - Site security	A	
G4 - Monitoring and Records, Maintenance and Reporting - Reporting and notification to Natural Resources Wales	A	

KEY: See Section 5 for breach categories, suspended scores will be indicated as such.
A = Assessed or assessed in part (no evidence of non-compliance), **X** = Action only,
O = Ongoing non-compliance, not scored.

Number of breaches recorded	0	Total compliance score (see section 5 for scoring scheme)	0

If the Number of breaches recorded is greater than zero, please see Section 3 for our proposed enforcement response

Officers Jonathan LEE and David WARWICK-BROWN visited Caerphilly Skip Hire (CWS) Ltd on Tuesday 8th January 2019 at 13:30pm. The weather was cold and clear at the time of inspection. The visit was made to complete a routine inspection of **EPR-EP3994LG**. Officers met with the site TCM, Mr Alun Pitten.

Inspection

Permit condition 2.1.1 (and subsequently Table S1.1) requires the permit holder to store and sort non-hazardous waste on an impermeable surface with sealed drainage. The operator has previously been scored breaches of this permit condition as the site drainage was not fully sealed and water run-off was able to bypass the site interceptor at the southern end of the yard.

During the inspection, officers were shown that improvements to the drainage infrastructure had been made to ensure that all run-off was directed towards the interceptor on site. Thank you for acting to resolve this previous non-compliance. No breach has therefore been scored against this permit condition as part of this compliance inspection.

Officers were also shown up to date certificates of continuing competency. Waste returns up to date, thank you for submitting these on time. Compliance with these conditions has been scored accordingly.

Permit Variation

The operator is intending on submitting a permit variation to extend the permitted area of the site, increase the tonnage throughput and add some additional treatment activities. Full advice and guidance was offered to Mr Alun Pitten during the site visit. Correspondence has also been sent separately to this CAR form.

If you have any issues with this report or wish to discuss this permit variation further please contact Jonathan Lee on 0300 065 3908 or jonathan.lee@naturalresourceswales.gov.uk

Thank you for taking the time to show officers around the site.

In this document 'Natural Resources Wales' means the Natural Resources Body for Wales established by Article 3 of the Natural Resources Body for Wales (Establishment) order.

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition.
Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Other than the provision of advice and guidance, at present we do not intend to take further enforcement action in respect of the non-compliance identified above. This does not preclude us from taking enforcement action if further relevant information comes to light or advice isn't followed.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

See Section 1 above			

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply

Non-compliance scores and categories
