

Notice of variation with introductory note

Environmental Permitting (England & Wales) Regulations 2010

City and County of Swansea Council

Garngoch Household Waste Recycling
Centre
Phoenix Way
Garngoch Industrial Estate
Penllergaer
Swansea
SA4 9WF

Variation application number
EPR/HB3997TD/V002

Permit number
EPR/HB3997TD

Garngoch Household Waste Recycling Centre

Permit number EPR/HB3997TD

Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

Schedule 1 of the Environmental Permitting Regulations was updated by the Environmental Permitting (England and Wales) (Amendment) Regulations 2013 to reflect the implementation of the Industrial Emissions Directive (IED) into England and Wales. Following this, Natural Resources Wales has varied Table 1.1 of the permit to include limits which the operator must operate below to remain a waste facility, resulting from the introduction of the Industrial Emissions Directive.

The title name of the permit holder has been officially changed to that of the “City and County of Swansea Council” and the site is now known as a Household Waste Recycling Centre (HWRC) and has been amended as such.

The site technically has the capacity to operate above the threshold limits detailed within the IED, specifically S5.6A(1)(a), temporary storage of hazardous waste with a total capacity exceeding 50 tonnes, however, they have chosen to put physical measures in place to operate below the threshold to remain permitted as a waste facility. Therefore, Natural Resources Wales has included these physical limits within the permit to incorporate them as an enforceable permit condition.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	Date	Comments
Licence Issued	23/03/99	
Hazardous Waste Modification	25/09/06	Complete review and addition of hazardous wastes
Application EPR/HB3997TD/T001 (full transfer of permit EPR/HB3997TD)	Duly made 24/05/13	Application to transfer the permit in full to City and County of Swansea Council
Transfer determined EPR/HB3997TD	09/07/13	Full transfer of permit complete
Natural Resources Wales initiated variation EPR/HB3997TD/V002	02/07/15	Permit varied by Natural Resources Wales to impose waste operation limits on activities in line with the Industrial Emissions Directive

End of introductory note

Notice of variation

Environmental Permitting (England and Wales) Regulations 2010

The Natural Resources Body for Wales (“Natural Resources Wales”) in exercise of its powers under regulation 20 of the Environmental Permitting (England and Wales) Regulations 2010 varies

Permit number
EPR/HB3997TD

issued to:

City and County of Swansea Council (“the operator”)

of

City and County of Swansea
Waste Management Division
Civic Centre
Swansea
SA1 3SN

to operate a regulated facility at

Garngoch Household Waste Recycling Centre
Phoenix Way
Garngoch Industrial Estate
Penllergaer
Swansea
SA4 9WF

to the extent set out in the schedules.

The notice shall take effect from **07/07/15**.

Schedule 1 – conditions to be deleted

None

Schedule 2 – conditions to be amended

The following conditions are amended as detailed, following an NRW initiated variation

Table 1.1 is amended to the following:

Table 1.1 activities	
Description of specified activity and WFD Annex I and II operations	Limits of specified activity and waste types
D9: Physico-chemical treatment resulting in final compounds or mixtures which are discarded by any of the operations numbered D1 to D12, e.g. evaporation, drying, calcination	i) Treatment consisting only of manual sorting, separation, shredding or compaction of waste into different components for disposal, (no more than 50 tonnes per day) or recovery. ii) Only upon impermeable pavement with a sealed drainage system
R13: Storage of waste pending any of the operations numbered R1 to R12 (excluding temporary storage, pending collection, on the site where it is produced).	i) The total quantity of waste to be stored on the site at any one time shall not exceed the maximum tonnage specified in section 1.2.3 of the working plan. ii) Waste shall only be stored on site for the maximum time period specified in section 1.2.3 of the working plan.
D15: Storage pending any of the operations numbered D01 to D14 (excluding temporary storage pending collection on the site where it is produced).	iii) Only upon impermeable pavement with a sealed drainage system iv) Temporary storage of hazardous waste, pending any of the activities listed in Sections 5.1, 5.2 and 5.3 of the environmental permitting regulations shall not exceed a total capacity of 50 tonnes. This includes any underground storage of hazardous waste but does not include temporary storage pending collection of waste generated on site.
D14: Repackaging prior to submission to any of the operations numbered D1 to D13	The following treatment of Non-hazardous, solid Degradable household, industrial and commercial wastes permitted under condition 1.2.1 of this waste management licence:
R3: Recycling/reclamation of organic substances which are not used as solvents.	i) Compaction Only ii) Only upon impermeable pavement with a sealed drainage system
R4: Recycling/reclamation of metals and metal compounds.	Only upon impermeable pavement with a sealed drainage system
R5: Recycling/reclamation of other inorganic compounds.	

Schedule 3 – conditions to be added

None
