Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Routine un-announced inspection carried out by Environment Officer Rhys Thomas. Accompanied on site by TCM Richard Hughes.

Weather at time of inspection was dry and sunny with a slight breeze.

The storage yard at the lower end of site near the weighbridge had some baled materials stored. This part of site was tidy. The material recycling facility was operational with recyclates being processed. Some maintenance work was underway at this part of site as the can baler is being replaced. All wastes were appropriately stored in the storage bays outside the building. All food waste was stored in a sealed container within the building. There was only a small amount of street cleaning residue stored in the designated bay at the time.

The civic amenity site was busy at time of inspection. This area was tidy and organised with all wastes stored in designated containers. Some co-mingled and residual waste was being stored in the residual waste transfer unit. No odour was detectable from outside the building. Odour monitoring sheets and fire safety sheet for this part of site were checked and found to be up to date and complete.

Site daily inspection sheets and litter picking records were viewed at the site office and were fully up to date.

Thank you for your time during the inspection. Overall the site was in good order and no breaches of permit conditions were noted during the visit.

If you would like to discuss anything mentioned in this report please contact Rhys Thomas on 03000 65 3765, rhys.rhomas@cyfoethnaturiolcymru.gov.uk
