Bonymaen
Swansea
SA1 7HG

Variation application number
EPR/TB3797TM/V002

Permit number
EPR/TB3797TM

Tir John Civic Amenity Site

Permit number EPR/TB3797TM

Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

Schedule 1 of the Environmental Permitting Regulations was updated by the Environmental Permitting (England and Wales) (Amendment) Regulations 2013 to reflect the implementation of the Industrial Emissions Directive (IED) into England and Wales. Following this, Natural Resources Wales has varied the Schedule D - Operations section of the permit to include limits which the operator must operate below to remain a waste facility, resulting from the introduction of the Industrial Emissions Directive.

The site technically has the capacity to operate above the threshold limits detailed within the IED, specifically S5.6A(1)(a), temporary storage of hazardous waste with a total capacity exceeding 50 tonnes, however, they have chosen to put physical measures in place to operate below the threshold to remain permitted as a waste facility. Therefore, Natural Resources Wales has included these physical limits within the permit to incorporate them as an enforceable permit condition.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	Date	Comments
Waste Management License issued (EAWML 34131)	30/03/1996	Original waste management license issued to Swansea City Waste Disposal Company Limited.
Environment Agency initiated modification issued.	14/11/2000	Modification of total waste quantity accepted per year.
Environment Agency initiated modification issued.	31/05/2006	Modification of waste types and records of waste movements.
Application EPR/TB3797TM/T001 (full transfer of permit EPR/TB3797TM)	Duly Made 24/05/2013	Application to transfer the permit in full to City and County of Swansea Council.
Transfer determined EPR/TB3797TM	09/07/2013	Full transfer of permit complete.
Natural Resources Wales initiated variation EPR/TB3797TM/V002	02/07/15	Permit varied by Natural Resources Wales to impose waste operation limits on activities in line with the Industrial Emissions Directive.

End of introductory note

Schedule 1 – conditions to be deleted

None

Schedule 2 – conditions to be amended

The following conditions are amended as detailed, following an NRW initiated variation

Schedule D - Operations is amended to include the following:

20. Temporary storage of hazardous waste, pending any of the activities listed in Sections 5.1, 5.2 and 5.3 of the environmental permitting regulations shall not exceed a total capacity of 50 tonnes. This includes any underground storage of hazardous waste but does not include temporary storage pending collection of waste generated on site.

Schedule 3 – conditions to be added

None
