Mr. Arthur Roberts Arch motors Maesdu Road Llandudno Conwy LL30 1LF	**Ein cyf/Our ref:** EP 37233 **Eich cyf/Your ref:** **Dyddiad/Date:** 12th November 2008

Dear Mr. Roberts,

Re Site Inspection 12th November 2008

Further to the site inspection carried out earlier today with Phil Goodman, I have enclosed the CAR1 form.

Please note that due to some minor breaches of your permit, that the form constitutes a Site Warning on this occasion.

Remediation must include use of a site diary or equivalent to be made available on future site visits and include those things specified by your permit.

You must also take steps to resolve the acceptance of waste electronic and electronic equipment (WEEE), which is not an activity included within the terms of your license.

Letters were sent to you earlier this year providing you with an opportunity to modify your licence. I understand that you replied to these letters, stating that you did not want the relevant conditions to be included into your licence.

Having been made aware of the legislation (WEEE Directive), your current activity is not within the terms of this legislation, which does not allow for minimum quantities handled. I have therefore obtained specialist advice on your behalf and outline your options for remediation below:

1. Apply for a modification to your existing licence to include WEEE (which is chargeable)
2. Register a Paragraph 41 exemption with the Environment Agency, which is a free registration for the secure storage of WEEE (see detailed Para 41 legislation enclosed).
3. Do not accept WEEE to site, but abide by your licence condition 7.3.1 if it does accidentally enter site.

Should you choose to either modify your licence or register an exemption, you are not obliged to register as an Approved Authorised Treatment Facility (AATF). You

will only be obliged to abide by the new conditions and relevant objectives, as will be specified.

I would be obliged if you would inform me in writing of which options outlined above that you intend to take and the timescales that you anticipate being relevant to becoming fully compliant with your licence.

Should you have any further queries, please do not hesitate to contact me on the number below.

Yours sincerely

Vanessa Lang
