Dear Sir/Madam

RE: Consolidation of Permits EPR/QB3032RW, EPR/QB3031RE, EPR/EP3399VE

Please find enclosed the completed application forms: Part A, Part C2, Part C4 and Part F1 regarding the application to consolidate Environmental Permits EPR/QB3032RW, EPR/QB3031RE and EPR/EP3399VE.

The City and County of Swansea would like to consolidate the permits to allow more streamlined management of operations and make better use of the space within the permitted area.

Further to the application forms, please find below and enclosed information to support the following questions.

Part C2, Question 1a

Enclosed as Appendix 1a and Appendix 1b are details of discussions prior to this application.

Part C2, Question 3b

Enclosed as Appendix 2 is a copy of the WAMITAB continuing competence certificate for Chris Fender, the manager of the facility.

Part C2, Question 3d

Permits EPR/QB3032RW and EPR/QB3031RE have an integrated management system which incorporates ISO 14001. Enclosed as Appendix 3 is a copy of the ISO14001 certificate.

BALING PLANT, CLOS FERRYBOAT, PARC MENTER ABERTAWE, ABERTAWE SA6 8QN

(01792) 636000

www.swansea.gov.uk

Permit EPR/EP3399VE is currently managed utilizing our own management system. Where applicable, the waste activities undertaken under this permit which are not managed in the existing ISO14001 system will be included in the ISO14001 system following consolidation.

Part C2, Question 5a

Enclosed as Appendix 4 is a plan showing the proposed consolidated permit boundary.

Part C2, Question 5b

Small areas of extra land have been included within the consolidated permit boundary to correspond with the existing procedures for litter control in these areas. The extra areas are: the staff smoking area in the north west of the site; the staff parking area in the south east of the site.

Both of these areas connect to the existing site drainage systems and are controlled in the existing environmental management system. Following discussions with the local NRW Environment Officer the site conditions of the extra areas is the same as the existing areas of the site.

Part C4, Table 1a

Enclosed as Appendix 5 is a table containing further information regarding waste operations.

Part C4, Table 3

Enclosed as Appendix 6 is a table containing further information regarding waste operations.

Should you need any more information please feel free to contact me.

Yours faithfully
