Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This variation notice permits an extension to the original site boundary at Winsel CA & Recycling Centre. This will enable the operator to develop a new purpose built building for processing items of unusable furniture collected through their household bulky waste collection service.

A consolidated and updated permit has been produced as part of this variation.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number
