The Environmental Permitting (England & Wales) Regulations 2010

Lloyds Quarries Limited

Maes Mynan Quarry
Denbigh Road
Afonwen
Mold
Clwyd
CH7 5UB

Transfer application number
EPR/DB3435RA/T002

Permit number
EPR/DB3435RA

Maes Mynan Quarry

Permit number EPR/DB3435RA

Introductory note

This introductory note does not form a part of the notice

The following notice gives notice of the transfer in part of an environmental permit to a new operator (the transferee) and the changes made to the original permit (the transferor's permit).

This notice reflects part transfer of a permit for a deposit of waste for recovery activity and the reduced area of land remaining with Lloyds Quarries Limited (the transferor). The area of land transferred to the new holder comprises the entire operational (in-filling) area. The reduced permitted area and decreased annual waste throughput tonnage are the only changes to the permit. Annual waste throughput has been reduced to zero tonnes.

The conditions relating to the deposit of waste in/on land activity have not been removed from the permit remaining with the transferor. However, the deposit activity can only be carried out in line with the approved waste recovery plan; and as the approved waste recovery plan relates to the operational area transferred to the new holder, the permit conditions do not allow deposit of waste activity in/on the area of land remaining with Lloyds Quarries Limited.

Any changes made as a result of the part transfer are set out in Schedule 1.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit		
Description	Date	Comments
Application EPR/DB3435RA/A001	Duly made 01/12/11	Application from Lloyds Quarries Limited for a deposit of waste for recovery – quarry infilling - permit.
