

**Notice of request for more information**

Environmental Permitting (England and  
Wales) Regulations 2016

## Notice requiring further information

**To:** Company Secretary  
Sims Group UK Limited  
Long Marston  
Stratford-Upon-Avon  
Warwickshire  
CV37 8AQ

**Emailed to:** [Georgina.Sidney@simsmm.com](mailto:Georgina.Sidney@simsmm.com)

**Application number: PAN-001328**

Natural Resources Wales, in exercise of its powers under paragraph 4 of Part 1 of Schedule 5 of the above Regulations, requires you to provide the information detailed in the attached schedule. The information is required in order to determine your application for a permit, dated **28/03/17**.

The information requested should be sent to the following address by **08/05/17**

**Information should be sent to:**

Ella Williams  
Permitting Service (Cardiff)  
Natural Resources Wales  
Cambria House  
29 Newport Road  
Cardiff  
CF24 0TP

**Email:** [ella.williams@cyfoethnaturiolcymru.gov.uk](mailto:ella.williams@cyfoethnaturiolcymru.gov.uk)

Name	Date
<b>Ella Williams</b>	21/04/2017

Authorised on behalf of Natural Resources Wales

## Schedule

### Turnover

In regards to Application form part C2 Table 1, it is stated that the amount of waste stored at any one time will not increase. We have assessed the EMS Summary and Operating Techniques (version: Skewen\_February\_2017) received 27/02/17 and there is no information as to how you will manage the increase throughput to ensure that the waste is turned over and does not back up on site, and hence the amount stored on site does not increase.

#### **Action:**

1. Please provide the amount of waste stored on site in tonnes under the permit currently
2. Please provide the parts of your EMS that describe how you will actually ensure that the waste is turned over i.e. capacity and maintenance of machinery to do this, outlets for waste etc.
3. Please provide your written contingency plans to ensure that the amount of waste stored will not increase i.e. if there are any breakdowns, enforced shutdowns or changes in normal operations, for example because of extreme weather, liquidation or supply chain failure

### Drainage

In regards to the Environment Risk Assessment and Management Plan (dated February 2017), we require more information on drainage system maintenance to manage the proposed increased throughput in terms of there being no additional risk in the discharge to the river, which contains protected species.

#### **Action:**

4. Please provide parts of your EMS on how you will manage the increased throughput in terms of the drainage system on site i.e. what is the routine maintenance schedule of silt pits and interceptor referred to, and non-routine protocol.

### **Waste Acceptance**

In regards to section 2.8 of Operating Techniques (version: Skewen\_February\_2017) received 27/02/17, we require more detail of the quarantine area described.

**Action:**

5. Please provide your assessment of whether your current quarantine area is sufficient for the proposed increase throughput and potential for higher amount of non-confirming loads.
6. Please give details of the nature of the quarantine area i.e. its capacity, whether it is an area, skips, bays etc,
