

Notice of variation and consolidation with introductory note

The Environmental Permitting (England & Wales) Regulations 2010

Celtic Recycling Ltd

Celtic Recycling Ltd
Unit 37
Village Farm Industrial Estate
Pyle
Bridgend
Glamorgan
CF33 6BZ

Variation application number
EPR/UP3998FB/V009

Permit number
EPR/UP3998FB

Celtic Recycling Ltd

Permit number EPR/UP3998FB

Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

We have varied and consolidated the permit on the request of the operator. The 'new' modern style, Tier 3 bespoke permit now includes treatment of waste electronic and electrical equipment, by means of draining oils and de-gassing. The previously permitted metal recycling activity is also included.

The site can now be considered to be (primarily), a mixed metal recycling activity, which includes treatment of waste electronic and electrical equipment prior to recovery of scrap metal. Drained oils and gasses from the waste electronic and electrical equipment are also recovered where possible.

Storage *only*, of other wastes (such as 'black bag' waste, asbestos, fuel and oils), brought back to site in association with the operators off-site contracting work, pending recovery or disposal elsewhere is also permitted. This is integral to the operators overall mixed metal recycling operation as a business and has therefore not been distinguished as a separate activity in the permit. Standards for storage of these wastes have been included in the permit. It is not expected that the site will operate as a general waste transfer station.

Relevant management and technical process documents detailing the newly permitted waste electronic and electrical equipment treatment processes have been incorporated into the permit. These documents are set out in Operating Techniques Table, S1.2.

The operator must comply with the Environmental Permitting Regulations and all other relevant legislation controlling the treatment of equipment containing fluorinated gasses, ozone-depleting substances and polychlorinated biphenyls. The various procedures and process documents used to control the activities on site, set out how the operator will achieve this.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status log of the permit

Description	Date	Comments
Licence issued (EAWML 34089)	15/02/94	Original waste management licence for a scrap metal sorting and storage facility issued to Celtic Recycling Ltd.
Modification issued	27/06/95	

Status log of the permit

Description	Date	Comments
Modification issued	25/09/95	
Modification issued	22/03/96	
Modification issued	25/03/99	
Modification issued	19/03/02	Full deletion of all previous conditions and replacement with a modern permit, for a scrap metal sorting and storage facility.
Variation issued EPR/UP3998FB/V006 (formerly EAWML 34089)	19/11/09	Operator led variation to increase annual throughput from 4,999 tonnes to 10,000 tonnes.
Variation issued EPR/UP3998FB/V007	08/10/10	Regulator initiated variation to reduce oil storage on site from 30 tonnes to 10 tonnes, at any one time – in order to reflect the legal capacity limit above which the site would operate as an installation.
Variation issued EPR/UP3998FB/V008	02/11/10	Regulator initiated variation to correct an error (relating to annual throughput) in the operator led variation issued on 08/10/10.
Variation application EPR/UP3998FB/V009	Duly Made 13/06/13	Variation to add processing activities already carried on at the site and to update the permit into modern format (updating consolidation).
Additional information received in response to request for information.	08/11/13	Updated and new management system and process documents detailing treatment processes, and site drainage plan.
Variation issued EPR/UP3998FB	06/12/13	Varied and updated/ consolidated permit for mixed metal recycling (and associated) activity (including de-gassing and drainage of waste electronic and electrical equipment) issued.

End of introductory note

Notice of variation and consolidation

The Environmental Permitting (England and Wales) Regulations 2010

The Natural Resources Body for Wales (“Natural Resources Wales”) in exercise of its powers under regulation 20 of the Environmental Permitting (England and Wales) Regulations 2010 varies and consolidates

permit number

EPR/UP3998FB

issued to

Celtic Recycling Ltd (“the operator”)

whose registered office is

Unit 37

Village Farm Industrial Estate

Pyle

Bridgend

CF33 6BZ

company registration number **02765374**

to operate a regulated facility at

Celtic Recycling Ltd

Unit 37

Village Farm Industrial Estate

Pyle

Bridgend

Glamorgan

CF33 6BZ

to the extent set out in the schedules.

The notice shall take effect from 06/12/2013.

Name

Date

Holly Noble	06/12/13
--------------------	-----------------

Authorised on behalf of Natural Resources Wales

Schedule 1

All conditions have been varied by the consolidated permit as a result of the application made by the operator.

Schedule 2 – consolidated permit

Consolidated permit issued as a separate document.
