Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

- Any examples of good practice
- A reference to photos taken

This was a routine site inspection carried out by Andrew Sowerby and Julia Lloyd. Weather conditions were dry and sunny. Mr Andy Brown accompanied officers around the site for the inspection.

Waste transfer notes for N J Skips were requested for another environment officer, these were obtained and will be returned when copied. Thank you for your cooperation with this.

The site was quite tidy, although the ground appeared to be a little muddy after the rain.

The site had general waste, green waste, inert waste, plastics, cardboard, window frames and tyres. The operator had just received a delivery of tyres and a member of staff was sorting them.

Officers asked about the area outside the site that had two skips on, Andy stated that this area was no longer used by him and the skips belonged to someone else.

Mr Brown stated that he was not taking in glass bottles any longer.

It was observed that a small number of batteries were not in a box and a small number of gas bottles were not in the container. The storage of gas bottles has been raised as an issue in previous inspections and the operator is aware of this. All waste on site needs to be stored appropriately and in compliance with the environmental permit and supporting documentation. We were informed that these wastes would be stored correctly as soon as possible.

A skip wagon was parked outside the site containing a skip of disused waste boilers. Mr Brown was asked about the skip and he said that this waste was only there temporarily and was on its way elsewhere. You must ensure that only waste that is listed within your permit is accepted on to site.

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition. Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

Criteria Ref.	CCS Category	Action required/advised	Due Date
See Section 1 above			

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply

Non-compliance scores and categories
