Proposal summary

Please provide an outline of your proposal, including any sketches.

As a guide, you should include: a description of the activities which (will) take place at your site, the means of abstraction/impoundment proposed, if the proposal is related to another licence or permit (i.e. an Environmental Permit to Discharge Water) and details of any survey work undertaken. For changes to existing licences, summarise the changes proposed. Sketches or photographs that will aid our understanding of your proposal can be uploaded below.

We are asking for a renewal of Abstraction Licence number MD/054/0001/012.

We use the water to run our micro hydro system.

We note your concerns over abstraction in the upper Severn Catchment but would like to point out that we put 100% of what we abstract back into the river and normally we only abstract less than 15% of our total abstraction in the five summer months May to September with the rest being taken October to April when there is usually an abundance of water. I have attached a breakdown of abstractions for 2020 which was our last full year and this represents the pattern of abstraction in most years.
