Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

This variation allows several changes to the installation as follows. The site drainage is improved with the removal of the discharge to ground and the inclusion of a two stage separator in the surface water drainage system. The removal of the oil fired boiler with associated oil storage tanks and the inclusion of the replacement relocated natural gas fired boiler. The addition of a 5000 litre self bunded Adblue storage tank. The addition of a 50,000 litre soya oil tank within the bunded area. The replacement of the molasses tank with a new tank, within the bunded area. The installation of a vehicle wash with discharge to the foul sewer.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number. It is not backdated before 6 April 2010.
